Sub: Coal crisis hits NALCO Power Plant.

Dear Sir.

We would like to inform you that there is a reduction in coal supply to 1200MW Captive Power Plant (CPP) at Angul which supplies uninterrupted power to its Smelter Plant on account of priority given to IPP over CPP and reduction in production from MCL, Talcher area. CPP sources its linkage coal from MCL, Talcher. However, to tide over the shortage, NALCO is temporarily importing 120 MW power from State Grid without curtailing any production as on date. As such, there is no production loss for coal shortage.

The above is in compliance with the requirements of Regulation 30 of SEBI (LODR) Regulations.

Thanking you,

Yours faithfully, for National Aluminium Co. Ltd.

(N K MOHANTY)
COMPANY SECRETARY
