Dr. Tapan Kumar Chand

Dr. Tapan Kumar Chand joined the Company as Chairman-cum-Managing Director on 27.07.2015. He is a Post Graduate in History and Public Administration from Utkal University. He also holds a Bachelor's degree in Law from Andhra University and DSW (Diploma in Social Welfare) from Calcutta University. He has been conferred with "D.Lit", the highest honour of Utkal University in recognition of his outstanding contribution towards Industry, Business Management & Nation Building. He has also been conferred with highest management award 'Ravi J Matthai National Fellow Award' by Association of Indian Management Schools. An outstanding scholar and gold medalist in his student career, he has undergone training in International Centre for Promotion of Enterprises in Slovenia and Queensland University of Technology, Australia. He received Jawaharlal Nehru Award for outstanding performance as a Professional.

Dr Chand is a highly competent and experienced professional from Metal sector having more than 30 years of rich experience in Mining and Metal Sector, out of which 8 years are at the helm of Affairs as Director in Coal & Steel sector. In steel sector, he has the distinction of steering Visakhapatnam Steel plant a Navratna Steel CPSU from the level of Rs.10,000 crore company to more than Rs.14,000 crore turnover company within two years of his joining as Director.

Under his leadership, NALCO could get complete raw material and energy security for next 50 years with acquisition of Bauxite and Coal Mines. Immediately after his joining as Chairman, NALCO, he has adopted a new Business Model with Corporate Strategy of maximizing production & productivity coupled with cost reduction to meet sluggish market condition as against the prevailing production regulation and cut. This has helped NALCO to achieve profit consistently despite around 70% of aluminium companies globally making cash loss. Due to his focus on cost reduction as per Wood Mackenzie report, NALCO has achieved the position of being the lowest cost producer of Alumina in the World.

He has been elected as the President of Aluminum Association of India. He is the Chairman of National Mines & Minerals Council of Associated Chambers of Commerce & Industry (ASSOCHAM). He is also the Vice-Chairman of Confederation of Indian Industry (CII)-Odisha Chapter. Currently He is the National member of Non-Ferrous Metals Committee of Federation of Indian Chambers of Commerce and Industry (FICCI).

While working in Business Development Dept. of NALCO, he immensely contributed in preparation of new vision and mission plan of NALCO. During his tenure in Smelter, NALCO smelter achieved 100% capacity utilization and bagged 2nd prize in Aluminium sector for National Energy Conservation Awards, 2011.

Shri Mohanty has successfully steered NALCO to set its first footprint outside the state of Odisha by foraying into the "Green Energy" with the commissioning of its 1st Wind Power Project of 50.4 MW at Gandikota, Andhra Pradesh and 2nd Wind Power Project of 47.6 MW at Jaisalmer, Rajasthan. Under his leadership, 160KWp grid connected Roof Top Solar plant on Corporate Office and 100KWp grid connected Roof Top Solar plant in Township at Bhubaneswar have been commissioned. Wind Power plants of 50 MW capacity and 50.4 MW capacity are under construction in the states of Rajasthan and Maharashtra. After successful demonstration trial of Nano based Emrion Technology for removal of fluoride from effluent water in smelter plant, a Defluoridation plant is being set up at Smelter plant. Actions have been initiated for Environmental Clearance and appointment of Process/EPCM consultants for 1 Mln TPA 5th Stream in existing Alumina Refinery. Tendering activities for 20 MW solar power project in MP, 50 MW Wind Power Plant & 50 MW solar power plant at suitable locations in India are being actively pursued. After persistent efforts, NALCO has been allocated Utkal D & E Coal blocks of 200 Million Ton in Angul district & Bauxite mines of 75 Million Ton in Pottangi, Koraput district recently thereby ensuring raw material security. Consequent to signing of MOU with Iran for Smelter Plant, the same is being actively pursued apart from titanium slag plant in JV with IREL. Agreement signed with Rio Tinto Alcan for R&D co-operation and AP2XN project for reducing the power consumption in smelter has been taken up as the 1st project. Agreements also signed with Chalieco for Separation of iron concentrate from Red Mud & Extraction of Gallium from Bayer Liquor and with BARC for R&D projects like Extraction of Gallium from Bayer Liquor/Extraction of Rare Earth elements from Red Mud. NALCO has joined hands with NFTDC and JNARDDC for developing indigenous Alumina extraction technology from Bauxite. NALCO is carrying out collaborative R&D projects with other leading public/private R&D/Educational institutions like IITs, IIMT, NIT, etc. The upcoming NALCO's Research and Technology Centre at Bhubaneswar over an area of 18 acres is poised to be only one of its kind in Aluminium sector.

COMPUTERIZATION ACTIVITIES

Your Company continued its efforts in taking advantage of latest developments in the Information Technology by suitably using them in the day to day functioning of the Company. In that direction, the

Company has taken various steps as detailed below:

After centralizing almost all its data and applications viz Procurement, Inventory Management, Finance and Accounting, Marketing and Sales and Human Resource Management on the SAP platform, the Company has now centralized the remaining applications primarily in the area of employee establishment in the legacy environment. This ensures uniformity in business logics followed across the enterprise. Further, plans have been initiated to implement analytics as decision support tools.

Digitization of documents and records has been taken up at various Offices and Units as a preparatory step for implementing digital document management system.

The network which is the backbone of IT has been revamped to a large extent with 10 Gbps backbone and 1 Gbps access technology and advanced routing, sequestering and queuing technologies, resulting in efficient and fast throughput across the network. For computing infrastructure that is nearing completion of life cycle, action is underway for replacing with current and scalable technology. Focus is towards use of standard platforms in lieu of proprietary platforms, and use of virtualization in servers to leverage the flexibility of virtualized server provisioning. Disaster recovery coverage is now being extended to all the applications and services. Plans are afoot for providing wider coverage of Wireless connectivity to provide higher flexibility in working.

The Company has taken steps to reinforce and secure its IT infrastructure and ecosystem by appointing a Consultant to assess the IT ecosystem and formulate appropriate IT Security Policy and framework to implement an effective Information Security Management System leading to ISO 27001 certification. This will be an assurance to all stake holders transacting digitally with the Company.

Current roadmap of activities includes digital office for document storage and retrieval as well as work flow automation, social platforms for in-house as well as for public. Knowledge Management will also be a key area of activity. The e-governance processes cover in-house services to employees and services like online application systems for recruitments to the general public. Providing bill tracking facilities for vendors and material tracking for customers is also on the anvil.

INDUSTRY STRUCTURE & DEVELOPMENTS

Alumina

Global production of metallurgical grade alumina grew from 106.07 Million Tonnes in 2014 to 112.31 Million Tonnes in 2015 registering an increase of about 5.9% y-o-y in 2015. During the same period, global consumption of alumina grew from 105.72 Million Tonnes to 112.29 Million Tonnes showing an increase of 6.2% y-o-y in 2015. China continued to be the world leader in both production and consumption of metallurgical grade alumina during 2015, accounting for practically 50% of global production and about 55% of global consumption. Besides China, sizeable growth in production has also been seen in Middle Eastern countries from 0.38 Million Tonnes in 2014 to 1.55 Million Tonnes in 2015.

Demand for metallurgical grade alumina in China is likely to receive a boost in 2016 from higher aluminium production due to re-starts of smelting capacities across China. Although the pace of restarts remains largely limited by tight credit and cash availability, there appears to be renewed upside potential to alumina demand, during the second half of 2016. Analysts expect Chinese MGA demand to reach 63.1 Million Tonnes in 2016, representing a 3.2% y-o-y increase.

In the rest of the world, demand for alumina is estimated to reach 52.1 Million Tonnes in 2016, representing a 2.0% year-on-year increase. Accordingly, total world MGA demand during 2016 is likely to reach about 115.2 Million Tonnes, representing a 2.6% y-o-y increase.

During 2016, alumina spot prices are expected to hold reasonably steady. The boost in MGA demand and Chinese alumina imports are expected to move the World ex. China alumina market into a slight deficit, by about the last quarter of 2016 and this is likely to allow alumina spot prices to remain firm.

Aluminium

Global Aluminium production grew by 6.1% y-o-y from 54.21 Million Tonnes in 2014 to 57.52 Million Tonnes in 2015, while global aluminium consumption grew by about 4.0 % y-o-y from 54.21 Million Tonnes in 2014 to 56.38 Million Tonnes in 2015. The aluminium market recorded a surplus of about 1.1 Million Tonnes during 2015. China continued to be the world's largest producer and consumer of Aluminium with a production level of 31.19 Million Tonnes, constituting 54% of global output and consumption level of 29.11 Million Tonnes, constituting 52% of global consumption. Growth of production in China during 2015 was recorded at about 10 % while that in the Rest of the World was 1.6%. Similarly, growth in consumption of primary aluminium was 6.6% in China and 1.3% in the world ex-China during 2015.

One of the factors that stimulated an improvement in global market fundamentals in early 2016 has been stronger than expected performance of Chinese primary demand for aluminium. This has been principally driven by the implementation of economic stimulus packages by the Chinese government. These supportive measures included substantial investments in infrastructure and real estate sectors. However, demand growth in China is expected to ease gradually during 2016, as the positive impact of the government's stimulus policies on primary consumption wanes. On the production front, it is expected that the rally in Chinese domestic prices will incentivise Chinese primary producers to gradually restart about 1.47MTPY of the previously unprofitable 4MTPY of capacity, which was curtailed during 2015.

Global aluminium prices have displayed considerable volatility throughout 2015-16, with LME Cash prices fluctuating between a high of USD 1,919/MT in May'15 to a low of USD 1,424/MT in Nov'15. Average LME cash settlement price

for 2015-16 was USD 1,592 per MT, registering a fall of almost 16% from 2014-15 average of USD 1,889 per MT. Several factors such as weak Chinese economic activity, large-scale Chinese exports, volatility in global equity markets, oversupply situation leading to high level of global inventories etc. have been putting pressure constantly on aluminium prices, keeping them low through 2015-16.

Estimated global stock of aluminium at the end of FY 2015-16 was approximately 15.37 million MT, registering an increase of about 5% from 14.64 million MT at the end of the last FY.

OPPORTUNITIES AND THREATS:

Opportunities

Aluminium is considered to be the “metal of the future” for India, considering its wide range of applications across various sectors. In addition to the electrical industry, which has been the predominant aluminium consuming sector in the country for a long time, substantial growth prospects are now also seen in new areas such as defence (e.g. building of aero structures, military helicopters) automobile (body, components) sector etc. Opportunities also exist in the downstream and value-added product segment e.g. sheets, extrusions and castings. The domestic market size is likely to show considerable increase in the near future, in view of large infrastructure requirements and other expanding end-user segments in the country.

Future growth prospects for aluminium in the country are strong in products like cookware, beverage cans, foils, alloy wheels, railway coaches etc. There also appears to be considerable potential for increased usage of aluminium in the housing sector, in view of the emphasis on sustainable growth and limiting deforestation / environmental degradation.

Threats

The Indian aluminium industry today faces several challenges which threaten its very existence. Falling global prices of aluminium reduce sales realizations for domestic primary manufacturers adversely impacting the bottom-line of aluminium companies. Availability of low-cost smelters in nearby regions such as West Asia (on account of cheaper gas based power generation) and China (on account of cheaper coal availability and power subsidies given to smelters) further aggravate the situation for the domestic primary aluminium industry.

Additionally, the domestic aluminium industry has been under considerable stress on account of the high incidence of imports of primary (unwrought) aluminium and scrap into the country. In fact, it is estimated that imports constituted roughly 50% of total consumption of aluminium in the country in FY 2015-16.

Other threat perceptions for the Indian Aluminium Industry include slowdown in the global economy, threats of substitution of aluminium by other materials particularly plastics and growing competition from secondary producers in the domestic market, all of which can adversely impact profitability and growth prospects of primary players in the country.

OUTLOOK FOR FUTURE

International Outlook:-

Global aluminium output in 2016 is estimated to rise to 58.9 Million Tonnes with an increase of 2.4% y-o-y while global consumption is estimated to reach 58.4 Million Tonnes during the year, recording a growth of 3.5% y-o-y. However, Chinese demand growth is likely to contract marginally during 2016, mostly due to lower off take from the construction sector. In 2015, the best performing sectors in the global market in terms of aluminium consumption included transport (automotive body sheet, marine and truck trailer etc.), commercial construction and packaging. In 2016, in addition to the above mentioned sectors, aerospace, defence and electrical sectors are also expected to show strong demand.

In 2016, LME prices are expected to consolidate at around \$1,600/MT in the near term. This is largely due to support from firmer global market fundamentals, higher crude oil prices and softness in the US dollar. Traders also expect metal prices to respond to changing expectations about U.S. Fed rate rises and U.S. Dollar movements over the coming months. Weakening of CNY is likely to put more pressure on LME as Chinese export would be more competitive.

On the global supply front, higher prices during 2016 are expected to trigger off a larger number of restarts of previously idled capacities, particularly across China. However, the bulk of the restarts are likely to progress gradually through the year, depending upon credit and cash availability and result of negotiations with power plants over preferential power tariffs.

Domestic Outlook:-

The Indian economy grew at 7.4% during 2015-16, which was practically unchanged from the previous fiscal year. Manufacturing emerged as one of the high growth sectors in the economy. As per latest IMF estimates, India's GDP growth is expected to strengthen to 7.5% in 2016-17, as a consequence of policy reforms and an expected pick-up in investment.

Total domestic production of aluminium metal during FY 2015-16 grew by 19.1% y-o-y from 2.05 Million Tonnes in 2014-15 to 2.44 Million Tonnes in 2015-16, on account of domestic aluminium producers ramping up output at new smelting assets. Domestic consumption of primary metal also showed a sharp jump of 25.4% y-o-y from about 1.58 Million Tonnes in 2014-15 to an estimated 1.98 Million Tonnes in 2015-16. This has been largely on account of increased offtake by the electrical, transportation and construction sectors. Aluminium exports by Indian primary producers also registered a 15% growth y-o-y from 0.77 Million Tonnes in 2014-15 to 0.88 Million Tonnes in 2015-16. This is particularly impressive as access to overseas markets have become increasingly tough for Indian producers, both on account of lower volume demand globally and low regional premiums.

Indian aluminium production is expected to rise further in 2016-17 as domestic aluminium producers ramp up output in order to achieve higher capacity utilization. Overall, the growth rate of primary metal supply, in the country, is likely to be higher than the growth in demand for the primary metal within India which may lead to a widening of the surplus in the country, leading, in turn, to a lowering of domestic prices.

In the domestic market, with the Government's increased thrust on infrastructure, it is expected that aluminium off take from the electrical, building and construction sectors would pick up considerably. The Government's visionary initiatives such as "Make in India" scheme, 100 "Smart Cities" program, 100% rural electrification, indigenous space programmes etc. are expected to boost off take of aluminium sharply in the coming years.

RISKS & CONCERNS

Volatility in LME prices, declining export premiums, fluctuations in US Dollar exchange rates, slowdown in the global economy and growing competition from secondary producers in the domestic market for value-added products etc. continue to remain causes of concern.

RISK MANAGEMENT

The Company has a Risk Management Policy, which inter-alia incorporates guidelines issued by Government of India from time to time. Risk Management is undertaken as a part of normal business practice and that as separate tasks at set time.

The Company has a Risk Management Committee at Board level. The Committee reviews the exceptional Risk Reports and advice remedial measures from time to time. The risk mitigation measures are periodically reviewed to ensure

that executive management controls risk through means of a properly defined frame work. Periodical review is made to identify new risk areas along with mitigation plans. For the identified risks, the nominated risk officers maintain risk registers in prescribed format which are also overviewed by Internal Auditors of the Company as well as at Senior Management level. Deviations, if any, are reported to the Risk Management Committee and Board. So far there is no Risk prevailing in the Company during year which may likely threaten the functioning of business of the Company.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has a well established and adequate system of internal control commensurate with the size and nature of its business. The Company's Internal Control System has been designed to provide for:

- Compliance with applicable statutes, policies & procedures, rules & regulations and delegated authority.
- Adherence to applicable Accounting Standards and Policies.
- Proper recording of transactions & timely reporting.
- Effective use of resources and efficient operations.
- Safeguarding of assets.

As per Section 134(5)(e) of the Companies Act, 2013, the Directors have an overall responsibility for ensuring that the Company has implemented system and framework of Internal Financial Controls, which are adequate and operating effectively.

The Company has well designed policies, procedures & guidelines in place to ensure control of its different areas of business operations and reporting. This includes delegation of powers, various manuals, rules, policies and guidelines formulated by the Company from time to time. The approved policies, procedures & guidelines are effectively and responsibly being used while executing business of the Company. The Company has developed & implemented an Internal Financial Control framework duly approved by the Audit Committee which includes internally entity level policies/processes and operating level standard operating procedures primarily aiming at bringing awareness amongst the officials dealing with affairs of the Company so as to ensure adherence of the policies, procedures, guidelines designed and put in place for effective control. This provides the Directors with reasonable assurance regarding the adequacy and operating effectiveness of controls with regards to reporting, operational and compliance risks.

Financial Statements are prepared in compliance with applicable Accounting Standards & on the basis of the Significant Accounting Policies as adopted by the Company duly approved by the Audit Committee and the Board. These Policies apply uniformly across the Company. The Accounting Policies supported by standard operating procedures are reviewed and updated from time to time. The Company uses ERP Systems as a business enabler and also to maintain its Books of Account. The Standard Operating Procedures and transactional controls built into the ERP Systems ensure proper recording, approval mechanisms and maintenance of records. The systems, standard operating procedures and controls are reviewed by management from time to time.

The Company has entrusted its internal audit function to external Chartered Accountants' Firms to carry out audits at all locations and functional areas. The internal auditors have access to all the information in the organization which has been largely facilitated by ERP implementation across the organizations. The observations of internal auditors arising out of audits are periodically reviewed at appropriate level and compliances ensured. Material observations of internal auditors are submitted to Audit Committee for its review, analysis and advice to further strengthen internal control system. Action Taken Report thereon is submitted to Audit Committee periodically.

During the year, controls were tested and no reportable material weakness in design and effectiveness was observed

as certified by Internal Auditors and as opined by Statutory Auditors in their report. The Company recognizes that any internal control framework, no matter how well designed, needs to be regularly reviewed & revised to ensure that such systems are reinforced on an ongoing basis in consonance with changing business environment.

DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

A. Financial Operation:

I. Revenue from Operation

₹ in Crore

Particulars	FY 2015-16	FY 2014-15	Change%
Export Turnover	3,246.87	3,307.31	-02
Domestic Turnover	3,909.66	4,463.31	-12
Gross Turnover	7,156.53	7,770.62	-08
Less: Excise Duty	453.20	508.72	-11
Net Turnover	6,703.33	7,261.90	-08
Other Operating Income	112.67	120.91	-07
Total	6,816.00	7,382.81	-08

During the financial year 2015-16, the Company has achieved chemical sales quantity of 12.20 Lakh MT against 12.25 Lakh MT achieved during last year. Sales volume of Aluminium metal during the financial year 2015-16 was 3.72 Lakh MT against 3.26 Lakh MT during last year. Net Turnover during the year has decreased over the preceding year mainly on account of decrease in sales realization of Aluminium Metal by 18% and Alumina by about 10%. However, higher volume of Aluminium metal sale by 14% has partly compensated the same.

II. Other Non-operating Income

₹ in Crore

Particulars	FY 2015-16	FY 2014-15	Change%
Other non-operating Income	536.57	672.64	-20

The other non-operating income is less mainly on account of lower income from investment of surplus fund, particularly on mutual fund investment (Fixed Maturity Plan) due to roll over to long term maturity plan to avail the tax benefit. Besides, Interest earned on deposits made towards disputed Electricity duty not happened in current year due to settlement of dispute during March, 2015.

III. Expenditure

₹ in Crore

Particulars	FY 2015-16	FY 2014-15	Change %
Raw Materials Consumed	1,104.40	1,031.59	+07
Power & Fuel	1,864.61	1,802.24	+03
Employee Benefit Expenses	1,361.36	1,377.91	-01
Stock (Accretion) /Depletion	(8.99)	2.90	--
Other Expenses	1,556.58	1,462.15	+06
Finance Cost	1.21	-	
Depreciation	424.09	413.66	+03
TOTAL	6,303.26	6,090.45	+03

- Increase in raw material expenses compared to previous year is primarily attributable to higher volume of production of both Alumina & Aluminium. Besides, due to higher specific consumption of Caustic Soda due to use of Bauxite with revised IBM guidelines, the expenditure is also more.
- Increase in Power & Fuel cost is attributable to higher volume of production of both Alumina & Aluminium. Besides, increase in rate of Electricity Duty and higher effective Coal Price due to change in coal composition has led to increase the expenditure. The increase of expenditure was partly offset due to decrease in price of fuel oil.
- Increase in Other Expenses as compared to previous year is mainly on account of increase in Renewable Purchase Obligation (RPO), increase in railway freight rate, contribution to District Mineral Fund (DMF) in terms of the Mines & Minerals (Contribution to District Mineral Foundation) Rules, 2015 and contribution to National Mineral Exploration Trust (NMET) in terms of the Mines & Minerals (Development and Regulation) Amendment Act, 2015.
- Increase in Depreciation was due to Capitalisation of Ash Pond capacity enhancement by utilization evacuated ash through ash mound at CPP and its amortization proportionately based on useful life.

Long-term loans & advances	1347.55	1221.85	+10
Other Non-Current Assets	49.48	47.45	+4

- Fixed Assets value has come down as depreciation for the year is more than fresh addition of fixed Assets.
- Capital Work in progress has increased mainly on account of expenditure towards Wind power plant.

- Non-current Investments has increased due to roll over of Mutual Fund investment for long term maturity plan with corresponding decrease in current investment.
- Long-term Loans and Advances have increased due to payment of mobilization advance for Wind Power plant and upfront money for Utkal D & E Coal Block.

II. Current Assets

₹ in Crore

Particulars	FY 2015-16	FY 2014-15	Change %

Short-term loans and advances	586.67	607.54	-03
Other Current Assets	233.64	240.28	-03

- Inventories: Inventories have come down primarily on account of reduction in stores, spares & consumables.
- Trade Receivables: The Company sales its products against firm financial arrangement, and as such there is no credit sales. Trade receivables mostly represent year end sales remaining unrealized as on 31st March of every year. Trade receivable has increased primarily due to unrealized Alumina Export as on 31.03.2016.
- Cash and Bank Balances: Increase in Cash and bank balances is mainly due to surplus from operations.

III. Non Current Liabilities

Cost reduction measures and efforts to improve specific consumption of critical raw material.

The Company has taken the following significant measures for reduction in cost of production and for improving profitability during the year which have resulted in improvement in profits.

- Improvement in specific consumption of coal in CPP and fuel in Refinery has resulted a saving of ₹15 crores.
- The coal transportation to CPP through MGR was increased which has resulted in saving of about ₹ 35 crores.
- The Company has produced & sold more wire-rods and rolled products which have higher margins and it helped to add additional profit of about ₹ 20-25 crores.
- As a strategic measure, the Company augmented the metal production to 3.72 lakh MT from 3.27 lakh MT in the previous year which led to higher contribution of about ₹ 60 crores. The Company intends to improve metal productivity further and eventually achieve the rated capacity as coal availability through linkage and e-auction is expected to improve.
- The Company recognizes that cost reduction initiatives are critical for long-term sustenance in a subdued market condition and accordingly is pursuing various short / medium-term measures to optimize cost and remain competitive.

Training

Human Resources Development is the key for the success of our organization. Keeping this in mind and the targets set, functional and developmental training needs are identified from multiple sources, primary being, the competency related needs, secondly, needs arising from organizational requirements and finally departmental / sectional imperatives. Emphasis is being placed on specific position related training needs and there is an attempt to customize programmes, to the extent possible. Training effectiveness evaluation is also carried out in line with the requirement of quality management systems, to measure the benefits emanating from the action. Impetus is being given to skill development programmes keeping the Govt. of India's intention of skilling India in view.

CORPORATE PLAN

NALCO's last Corporate Plan was designed in 2009. The expansion projects so far have been guided to an extent by the road map of the existing Corporate Plan. However, two successive economic crises, volatile markets and growing concerns about environment, had profound impact on the global business environment. In view of the background circumstances, the Company has decided to revisit its strategies and reformulate a resilient Corporate Plan taking into account the changed business scenario in an atmosphere of future uncertainties, to place the Company into a high growth trajectory. It has been decided to hire the services of a Consultant of global repute to prepare the Corporate Plan. The process is likely to be completed during 2016-17.

BUSINESS DEVELOPMENT

Alumina Refinery Project in Gujarat

NALCO has carried out a feasibility study to set up a 0.5 MTPA alumina refinery project in Kutch dist. of Gujarat based on supply of bauxite from Gujarat Mineral Development Corporation (GMDC)'s mines. Discussions are being held with GMDC regarding bauxite resource assessment in Kutch.

100 MW Wind Power Plant

NALCO placed orders in Jan, 2016 for installation of two wind power projects - 50.4 MW in Maharashtra and 50 MW in Rajasthan.

Solar Power Projects

20 MW Solar PV Power Project: With an objective to meet its solar Renewable Purchase Obligation (RPO), NALCO plans to set up 20 MW Solar PV Power Project in Madhya Pradesh. New and Renewable Energy, Govt. of M.P. (MPNRED) has accorded in-principle approval for the project. Action has been initiated for selection of solar power developer.

Rooftop Solar Plant: The Company placed order in March, 2016 to install 50 kWp rooftop solar project at NALCO Research and Technology Centre (NRTC), Gothapatna, Bhubaneswar under MNRE subsidy scheme.

Titanium Slag Project

NALCO has signed MoU with Indian Rare Earth Ltd. (IREL) in July, 2014 for development of 1 Lakh TPA Titanium Slag Project at Chatrapur in Odisha in Joint Venture. Pre feasibility report for the project has been prepared.

Overseas Smelter

NALCO is exploring to set up a greenfield aluminium smelter in a country where energy would be available at a competitive price. Iran, Oman and Indonesia have been identified to be suitable destinations for the project.

Angul Aluminium Park Pvt. Ltd. (JV between NALCO and IDCO):

NALCO has formed a JV Company named Angul Aluminium Park Pvt. Ltd. (AAPPL) with IDCO in 2010 to promote downstream and ancillary industries in Odisha. NALCO has committed to supply 50,000 MT of molten aluminium per year for a period of 20 years to the JV Company. Recently, Angul Aluminium Park Pvt. Ltd. (AAPPL) has been designated as the State Implementing Agency (SIA) for the project under the Modified Industrial Infrastructure Upgradation Scheme (MIUS) of Govt. of India which enables the project to avail grant from Department of Industrial Policy and Promotion (DIPP).

Nuclear Power Plant in JV with Nuclear Power Corporation of India Ltd. (NPCIL)

NALCO has formed a JV Company named NPCIL-NALCO Power Company Ltd. "NNPCL" with NPCIL in March, 2012. The recently enacted Atomic Energy (Amendment) Act 2015 by Govt. of India in January, 2016 has paved the way for setting up of nuclear power plants by NPCIL with other PSUs in Joint Venture mode.

Caustic Soda Project

NALCO has formed a Joint Venture Company with Gujarat Alkalies Chemicals Ltd. (GACL) named GACL-NALCO Alkalies & Chemicals Private Limited "GNACPL" on 4th Dec, 2015 to set up 2.7 Lakh TPA caustic soda plant along with 100 MW captive power plant. NALCO will hold 40% equity in the JV and balance 60% will be held by GACL.

JVs and Associate Companies

There is no change in the number of JV companies and associate companies during the year under report except addition of JV with GACL mentioned above.

ANCILLARY DEVELOPMENT

Your Company continued its efforts for development of Ancillary Units and MSEs (Micro and Small Enterprises). Action taken during the year under review towards development of Ancillary Units & MSEs are as follows:

- In compliance of Public Procurement Policy, 2012 of Government of India, Ministry of MSME, the Purchase Manual, 2011 of Nalco has been amended to allow purchase preference to MSEs and Ancillary Units, quoting within the price band of L-1 + 15%.
- The procurement of products produced and services rendered by MSEs (Micro and Small Enterprises) units of Odisha including Ancillary Units for FY 2015-16 stands at ₹ 23,664 lakhs. The total procurement of products produced and services rendered by MSE units (including those from outside Odisha) stands at ₹ 32,233 lakhs during FY 2015-16, which is 20.45% of the total procurement of Goods and Services made by Nalco. For FY 2016-17, the target for procurement of products produced and services rendered by MSEs has been set at ₹ 32,318 lakhs.
- The PLAC Sub- Committee meeting was also held at M&R Complex and S&P Complex in July, 2015 and in February, 2016 respectively.

- Nalco bagged the “Best Display Award” in the Mother Plant category in the Three day long National Vendor Development Programme-cum-Industrial Exhibition and Buyer-Seller meet programme “MSME Expo Odisha -2015” organised by MSME Development Institute, Ministry of MSME, Govt. of India from 16th to 18th Dec, 2015 at Kila Maidan, Cuttack.
- Nalco received the “Best Mother Plant” award in the “Odisha MSME International Trade Fair - 2016” organised by MSME Dept., Govt of Odisha, Directorate of Export Promotion & Marketing, Govt of Odisha and Odisha Small Industries Corporation, Odisha and held at IDCO Exhibition Ground, Bhubaneswar from 8th to 14th January, 2016.
- Since the Company has adopted e-procurement process, as per Govt. of India guidelines, emphasis is being given to facilitate and enable the MSE vendors by way of training support and hand holding support to participate in the e-procurement processes of the Company. Accordingly, Buyers and Sellers interaction meetings and various Training programmes were conducted at both S&P Complex, Angul and M&R Complex, Damanjodi.
- In order to encourage SC/ ST vendors, Vendor Development Programmes for SC/ST Entrepreneurs was conducted at M&R Complex on 30.7.2015 and at S&P Complex on 26.2.2016.
- A Display Hall has been commissioned on 13.10.2015 in Purchase Dept. of Refinery, where around 50 items have been put on display for procurement from MSE vendors.

SAFETY, OCCUPATIONAL HEALTH & ENVIRONMENT

NALCO is a leading and proactive Navaratna PSU, taking all steps for combating Environment, Safety and Occupational Health (ESH) related issues and is committed for a cleaner, greener and safe working environment in all its production units. All the production units of NALCO are operating with Valid Consent to Operate (CTO), Authorization, Environmental Clearances, licenses etc. as per requirement of the concerned statutes under Environment, Safety and Occupational Health regulations and are certified to international standard ISO-14001 & OHSAS 18001.

To meet the stringent regulation enacted day by day, NALCO has gone for retrofitting of ESP, installation of GTC, revamping of FTC etc. proactively to meet the emission norm in coming years. Nalco has adopted Zero Discharge waste water management system and takes measures for Safe disposal of Hazardous waste. Nalco also incorporates greener technologies in its new and existing projects as a part of pollution prevention strategies. Nalco has adopted rain water harvesting in all its production units. All the units of NALCO are having laboratory facilities and trained manpower for monitoring the environmental parameters.

All units of NALCO follow Safety Compliance; record the Accidents, near miss Incidents, unsafe acts and unsafe conditions observed during site inspection. The same are analyzed and suitable corrective actions are initiated. Necessary Safety Signages are provided at requisite location of the plant premises for awareness amongst the employees, contractor workers, visitors etc. Standardized Safety Items like Safety Shoes, Safety Helmet, Safety Goggles and other Specialized Personal Protective Equipments are used by employees / contract workers while executing the work.

NALCO has provided Occupational Health Centre (OHC) at its S&P Complex as well as its M&R Complex. Both the OHC are provided with qualified Doctors, qualified Technical staffs associated with all modern testing facilities. Periodical Medical Examination (PME) for all employees of NALCO as well as Contractor Workers are carried out at regular interval as per statute through Occupational Health Centre (OHC) & competent out sourced agencies recognized by DOF&B. Analysis of PME results indicates no Occupational Diseases observed in both the complex.

Further, for developing awareness on SHE issues NALCO celebrates Environment, Safety and Health functions like World Environment Day, Vanamahostav, Chemical Disaster Prevention Day, Ozone Day, National Safety Day/Week, Electrical Safety Week, Road Safety Week, Fire Safety Week, Chemical Disaster Prevention Day Mines Environment and Mineral Conservation Week and continuous publication of Bulletins, Newsletter and Annual journal etc. All units of Nalco have "on site emergency plan" in place. To check response "mock drills" are conducted regularly as per statutory guidelines. Regular safety inspection, annual safety audit, external safety audits, OHSAS Audits are conducted to find out the lapses and take corrective action.

Nalco has done massive plantation in and around its production units to maintain greenery in the area.

In addition to above some of the new initiatives projects taken up at its production units are:

- Provision of High Concentration Slurry Disposal (HCSD) of fly ash disposal to minimize water consumption and land pollution at Refinery plant.

- Installation of red mud filtration unit to recover caustic soda and to facilitate dry disposal to prevent water & land contamination at Refinery plant.
- Erection & commissioning of de-dusting units completed in Dec'15 to reduce the dust level in shop floor of Rodding Shop -1 at Smelter Plant.
- RTDAS (Real Time Data Acquisition System), ambient air monitoring stations and effluent monitoring station for continuous uploading of monitored data to the server of OSPCB through GPRS service implemented at different production units of NALCO.
- To control fugitive dust at CHP-II crusher house, DE system has been installed which is controlling fugitive coal dust emission in that area at CPP.

2.2 For each product, provide the following details in respect of resource use (energy, water, raw material) per unit of product (optional).

- i) **Reduction during sourcing/production/ distribution achieved since the previous year throughout the value chain.**

Priority is always given to achieve efficiency in the use of resources . Achievements of Specific Consumption on Energy & Carbon is given below, at **Table B1 & B2.**

- **Specific Energy Consumption (SEC) achievement during the period of PAT Cycle-1 i.e. 2012-13, 2013-14 & 2014-15 was better than the assigned target and the SEC achieved as audited during 2015-16 is placed below:**

TABLE-B1

Unit	Baseline SEC (in TOE/T)	Targeted SEC (in TOE/T)	Achievement (in TOE/T)	Targeted reduction (in %)	Achieved reduction (in %)
S&P Complex	5.474	5.199	5.109	5.024	6.66
M&R Complex	0.325	0.307	0.306	5.54	5.85

- **Specific consumption of a few key inputs are given below :**

TABLE-B2

Specific Consumption per unit of production	Unit of Measurement	Norm	Previous Year (F.Y. 2014-15)	Current year (F.Y. 2015-16)
HFO consumption in Alumina Refinery	Lt/Tonne	80.8	81.48	79.78
Coal for steam generation in Alumina Refinery	Tonne/Tonne	0.620	0.669	0.662
Electrical energy in Alumina Refinery	KWH/Tonne	335	348.16	323.03
DC Energy consumption in Smelter	KWH/MT	13500	13395	13453
Net carbon consumption for hot metal in Smelter	Kg/MT	430 + 10	431	426
Coal consumption in CPP on net power generation	Kg/KWH	0.90	0.912	0.905

ii) **Reduction during usage by consumers (energy, water) has been achieved since the previous year.**

Data, information regarding energy, water use by consumers is not available. However, since our customers are provided with products meeting the specified quality requirements on consistent basis which enables smooth operation of plants at their end, it is expected to result in optimum use of energy, water and other critical inputs in the processes of customers. Also, applications of Aluminium in automobile , aerospace , green buildings & strategic sectors like defense do have enormous scope from sustainability point of view, due to the inherent properties of Aluminium which enable significant weight reduction, fuel efficiency enhancement, recycling etc. Use of Aluminium ensures reduction of energy consumption.

2.3 Does the company have procedures in place for sustainable sourcing (including transportation)?

Yes.

Sustainable sourcing of raw materials has been primarily ensured by establishing the major manufacturing units close to the source of crucial inputs like bauxite and Coal. Alumina Refinery , is situated very close to the captive Bauxite Mines and the major raw material i.e. Bauxite is transported to the plant by a single flight long distance cable belt conveyor installed in our mines. 100% of our bauxite requirement is met from this source. During this year , a new deposit of about 79 Million Tonne of Bauxite at Pottangi is likely to be allocated to us soon to meet our growth needs and long term requirement. This is likely to boost up our raw material security as far as sustainable Bauxite availability is concerned.

Similarly, our Smelter Plant & the Captive Power Plant are situated quite close to the coal mines of M/s MCL, from which coal is procured as per the prevailing Fuel Supply agreement (FSA) and are well connected by road & rail . A dedicated Merry Go Round (MGR) captive rail system is also installed between the Bharatpur Coal mines of M/s MCL and our Captive Power Plant , which ensures reliable and cost effective coal transportation to the power plant. Shortfall in coal availability if any, is bridged by purchase of coal mostly through e-auctions notified and conducted by Coal India subsidiary companies. The option of using imported coal is also available & is exercised , depending on the exigency of requirements & outcome of detailed cost-benefit analysis. With allocation of Utkal D & E coal blocks having coal reserve of 200 Million Ton , our position pertaining to sustainable availability of coal , is also expected to improve.

We also ensure sustainable supply of all critical inputs by expanding our vendor base, with efforts to source from vendors close to our units. All input materials are sourced 100% in sustainable manner , with procurement through competitive bidding. Orders for supply of all bulk raw materials i.e. Caustic soda, Lime, CT pitch, CP coke, Aluminium fluoride etc. are also distributed amongst multiple vendors meeting the qualifying criteria in order to enhance sustainability of sourcing by improving the reliability of supply. Due to our direct control over mining, transportation & extraction activities, sustainability is ensured throughout the process.

For water, sourcing is from river & streams in proximity of units, with necessary infrastructure arrangements by the Company.

2.4 Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

A well-defined Ancillary Development policy is in place for encouraging local suppliers and the organization

supports & encourages development of local vendors. MSME Facilitation cells operating at our Units, provide guidance to vendors in important areas like Technical issues, Commercial terms & conditions. The total number of Ancillary Units stands at 59. List of Goods and Services which can be procured from MSEs are available in the our website. Display halls at S&P Complex exhibit the materials required by units along with important informations i.e. technical specifications, annual requirement, price in the last purchase order for information of Local and Small vendors. A similar display Hall was also made operational during October'15 at Alumina Refinery, where around 50 items have been put on display for procurement from MSE vendors.

Persistent efforts are made for development of Ancillary Units and MSE (Micro and Small Enterprises) units. Opportunities are provided to such units for manufacturing and supplying various input materials & services by implementing a transparent tendering procedure & with certain financial incentives available to them. The Purchase Manual , is suitably amended to comply with the Public Procurement Policy 2012 notified by the Ministry of MSME, Government of India, with purchase preference provided to MSEs and Ancillary Units, quoting within the price band of, lowest quoted price plus fifteen percent i.e. $L1 + 15\%$. The procurement of products produced and services rendered by MSE (Micro and Small Enterprises) units of Odisha inclusive of Ancillary Units during 2015-16 , was Rs 236. 64 crores , while the same from MSE units (including those from outside Odisha) was worth Rs.322.33 crores . The procurement from MSEs during the year was 20.45% of total procurement . The target set for the same , in 2016-17 , is Rs. 323.18 crores.

Continuous efforts to engage the local MSEs and encourage them to enhance their contribution, resulted in having two successful PLAC Sub- Committee meetings in the year , one each at M&R Complex and S&P Complex, during July 2015 and February 2016 respectively.

In order to promote e-procurement as per Govt of India guidelines, support including handholding guidance on the e-procurement system implemented in our organization was provided to the MSE vendors through interactive meetings and training sessions at S&P Complex, Angul and M&R Complex, Damanjodi. Further thrust in Vendor Development area was also provided by conducting exclusive programs at both the complexes to encourage SC/ ST participants where efforts were made to inculcate the spirit of entrepreneurship amongst the target group.

Our participation in various MSME exhibitions also provides the much needed exposure and encouragement to many vendors. During the year, we participated in such exhibitions and were honoured with the “Best Display Award” in the Mother Plant category at the “MSME Expo Odisha -2015” December'15 exhibition at Cuttack organized by the MSME Development Institute of Ministry of MSME, Govt. of India . This event also had concurrent National Vendor Development Programme with Buyer- Seller meet. Our efforts in this area were also recognized by the MSME Dept., Govt of Odisha , who conferred on us the “Best Mother Plant” award in the “Odisha MSME International Trade Fair 2016” , Bhubaneswar held during January'2016.

2.5 Does the company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste?

Being a primary aluminium producer, the thrust is given to recycle the inevitable process wastes to the maximum possible extent. The aluminium dross generated in melting furnaces at Smelter are processed

in autogenous mills where metal is separated from bath material and the recovered metal is recycled. The aluminium wedges used for bypassing pots, pot hoods, pot cowl, residual metal pad etc are melted and recycled through potline scrap melting furnace.

Priority is given to sustainable use of water & we recover and reuse water where ever possible. All our production units are zero discharge units with respect to their waste water and sewerage water management. The treated waste water was reused in process and sewerage water is used for horticulture. Ash pond water at CPP and Ash pond and Redmud pond water at Refinery is also recycled for ash pumping, red mud slurry making and mud washing. In Mines the waste water generated from canteen and washing area of Heavy Earth Moving Machineries (HEMM) are treated and reused completely for dust suppression and horticulture activity. In Smelter the treated waste water is used for vehicle washing and anode cooling. Augmentation and recycling of waste water at our Smelter plant & township by reverse osmosis process is planned. In CPP, the ash pond overflow water is recycled and reused in the ash disposal system. In the year **2015-16, 1,49,30,800 cubic metre water from CPP ash pond & 38,13,309 cubic meter water from Refinery Red Mud Pond was recycled.** Recovery and reuse of different wastes etc. in our Operations, are stated at “**TABLE C**”, below:

TABLE C : Recycling/ Reuse of waste

Unit	Utilisation	Percentage
Bauxite Mines	Overburden utilized for concurrent reclamation of mined out areas	100%
Alumina Refinery	Caustic Soda recycled from waste redmud	5.51%
	Ash utilization	98.67%
	Recycling of Ash pond water	93%
Smelter	Recycling of Aluminium scrap	100%
	Aluminium dross recycled as input to process	90.5%
	Recycling of spent anode	100%
CPP	Ash Utilisation	66.52%

Principle 3: Business should promote the wellbeing of all employees.

3.1 Please indicate the total number of employees :

As on 31.3.2016, the total strength of employees in regular employment is 7,100 only.

3.2 Please indicate the Total number of employees hired on temporary/contractual/casual basis as on 31.3.16:

Only, six persons are employed on direct contract basis at Units, in the Hospitals and Civil Engineering function. Job Contractors working in areas like hospitality, maintenance, sanitation, conservancy and project activities etc. have engaged 9688 workers to discharge their contractual obligations.

3.3 Please indicate the Number of permanent women employees :

As on 31.3.2016, the strength of permanent women employees is 355.

3.4 Please indicate the Number of differently-abled permanent employees :

Total strength of differently-abled persons on regular employment as on 31.3.16, is 83.

3.5 Do you have an employee association that is recognized by management.

Yes, 29 registered unions are in existence in different units & offices. The union having majority membership in any unit is given the status of a recognised Union. Total five unions, one each in the four production units & Corp. Office, are operating as recognized unions. In addition to these unions, six numbers of employees' associations are also operating in the organization.

3.6 What percentage of your permanent employees, is members of this recognized employee association?

About, 99% employees are members of the Registered Unions. As far as the recognised Unions are concerned, 52% of unionized employees are members of these Unions.

3.7 Please indicate the Number of complaints relating to child labour, forced labour, involuntary labour, sexual harassment in the last financial year and pending, as on the end of the financial year.

The status is :

Sl. No.	Category	No. of complaints pending as on 31.03.2015	No. of complaints filed during the F.Y. 2015-16	No. of complaints pending as on 31.03.2016
1	Child labour/ forced labour/ involuntary labour	Nil	Nil	Nil
2	Sexual harassment	Nil	01	01

3.8 What percentage of your under mentioned employees were given safety & skill upgradation training in the last year?

- **Permanent Employees; Permanent Women Employees; Casual/ Temporary/ Contractual Employees; Employees with disabilities.**

The status related to above training is placed below :

Category of employees	Present Strength	Number of persons undergone Safety and Skill Upgradation Training	Percentage of persons undergone Safety and Skill Upgradation Training
Permanent Employees	7100	2920	41.1 %
Permanent Women Employees	355	77	21.7 %
Casual/ Temporary/ Contractual Employees including those engaged by job contractors in outsourced jobs	9694	847	8.7%
Employees with Disabilities	83	10	12%

Minimum of 2.2 man-days of training per permanent employee is planned every year and all categories of employees will be imparted training in a stipulated timeframe.

Principle 4 : Business should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalized.

4.1 Has the company mapped its internal and external stakeholders?

Yes. The stakeholders identified are those, who have either any impact on our operations or those who get impacted by our activities, at any location of our units or its periphery. They could be either internal i.e. employees or external to the organisation i.e. Customers, suppliers, investors, Government and their representatives and committees, Local Communities, Regulatory authorities, Service providers & job contract workers, Industry associations etc. Concerns and perceptions of these internal & external

stakeholders are captured and periodically updated through formal or informal channels of communication to focus on the relevant issues and chalk out suitable action plan for response.

4.2 Out of the above, has the Company identified the disadvantaged, vulnerable and marginalized stakeholders.

Yes. Base line mapping of the socio economic conditions in the periphery of our Mines , Plants etc. are carried out during environment impact assessments. The operational areas i.e. Mines , Plants are situated in localities having substantial number of inhabitants belonging to the economically disadvantaged & vulnerable social strata . Our social vision and action plan emphasizes on the issues concerning the marginalized stakeholders from the economically disadvantaged & vulnerable social strata.

4.3 Are there any special initiatives taken by the company to engage with the disadvantaged, vulnerable and marginalized stakeholders.

The special initiatives taken up for such marginalized stakeholders from the economically disadvantaged & vulnerable social strata , comprise of the prioritized issues mentioned below:

1. Good Health & Well-being of the peripheral villages around the plant & mines
2. Quality Education with emphasis on girl children and tribals
3. Water supply & sanitation
4. Empowerment of rural women
5. Skill Development training for youths in peripheral villages

Principle 5: Businesses should respect and promote human rights.

5. 1 Does the policy of the company on human rights cover only the company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?

Yes, the policy on Human Rights covers all our employees, contract labours and other service providers. Human Rights practices mandated as per the various applicable statutes i.e. Factories Act 1948, Industrial Disputes Act 1947, Mines Act 1972 etc. are implemented across the supply chain and necessary screening & evaluation is done for suppliers and contractors. Also, in the job contract conditions, important human rights concerns i.e. child labour, forced and compulsory labour are suitably addressed to restrain any human rights violation. Our units including Corporate Office is certified to SA 8000.

5.2 How many stakeholder complaints have been received in the past financial year and what percent was satisfactorily resolved by the management?

One complaint related to sexual harassment was received during the year i.e. January 2016 and investigation of the complaint received was in progress as on 31.03.2016. (Refer 3.7)

Principle 6: Business should respect, protect, and make efforts to restore the environment.

6.1 Does the policy related to Principle 6 cover only the company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others

Environment Management System conforming to the International Standard ISO 14001 is implemented in our units and the Corporate Environment Policy is applicable to all units, offices . Units have outlined environment objectives specific to their areas of operations derived from the guidelines of Corporate

Environment Policy . Suppliers and Contractors are also covered in the scope of this policy , by the relevant clauses in NIT and Workorders.

6.2 Does the company have strategies/ initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.

Initiatives taken to address global environment issues such as climate change, global warming are highlighted below:

- *Two Wind Power Projects, one of 50.4 MW at Gandikota, Andhra Pradesh and the other project of 47.6 MW at Jaisalmer, Rajasthan are in operation.*
- *Two Roof Top Solar Power Plants of capacity 160 KWp & 100 KWp are operating at the Corporate Office and township, at Bhubaneswar.*
- *Procurement action for installation of two wind power projects: 50.4 MW in Maharashtra and 50.0 MW in Rajasthan is taken in January'16.*
- *Setting up of a 20 MW solar PV power project in Madhya Pradesh is planned*
- *Procurement action for installation of one 50 KWp rooftop solar project at Nalco Research and Technology Centre (NRTC), Gothapatna, Bhubaneswar is taken during March'16.*
- *Study is being undertaken to assess the feasibility / viability of setting up roof top solar plants at various locations of Nalco at Damanjodi, Angul & Vishakhapatnam.*

Under the Perform, Achieve and Trade (PAT) scheme , a market based mechanism for promotion of energy efficiency, the Bureau of Energy Efficiency (BEE) had set targets for reduction of Specific Energy Consumption during the three-year period i.e. April 2012 to March 2015. These targets were achieved in both M&R and S&P complex, through energy efficiency initiatives taken up at our plants. The major initiatives on energy conservation taken at different units are highlighted in the annual report.

6.3 Does the company identify and assess potential environmental risks?

Yes. Review of environment impacts arising out of key business activities are done periodically to identify and assess potential environment risks and to take steps for mitigation of the identified impacts. Sustainable mining practices including the approved Mines closure plan are implemented in the Mines area. Site Specific Wildlife Conservation and Management Plan are also in place for launching appropriate initiatives. Similarly, in all our plants i.e. Alumina Refinery, Smelter & CPP review of environment impacts arising out of key business activities are done . Aspect-Impact analysis is carried out for Mines and all plants and appropriate mitigation measures are taken for significant impact areas. These provide a basis for various environment initiatives. Risks are identified over product lifecycle and detailed at 2.1 above.

As part of our Environmental stewardship , we monitor Perfluorocarbons (PFCs) emissions , produced in the primary aluminium reduction process at Smelter during anode effects. An anode effect is a process upset condition, where an insufficient amount of alumina is dissolved in the electrolyte bath. This causes the voltage in the pot to be elevated above the normal operating range, resulting in the emission of gases containing the PFCs ; tetrafluoromethane (CF4) and hexafluoroethane (C2F6). The Smelter Plant is equipped with the most advanced ALPSYS pot regulation system, which helps in reducing the frequency and duration of anode effect by timely dosing alumina into the pot. For the year 2015-16, the PFC emission

from Smelter Potline has been estimated using AP (Aluminium Pechiney) overvoltage method and the values are given below:

CF4(kg/T Al)	0.0384
C2F6(kg/T Al)	0.0046

6.4 Does the company have any project related to Clean Development Mechanism (CDM)? If so, provide details thereof. Also, if yes, whether any environmental compliance report is filed?

Wind Power Projects are taken under Clean Development Mechanism (CDM) of the United Nations Framework Convention on Climate Change (UNFCCC), since the projects help in significant reduction of GHG emissions. The wind power projects are grid connected renewable energy projects that generate electricity through utilization of wind energy.

50.4 MW Wind Power Plant at Gandikota - CDM project

CDM Project activity has obtained Host Country Approval (HCA) from Ministry of Environment and Forests, Govt who are the National CDM Authority (NCDMA) in India. The project activity has been validated by (UNFCCC) accredited Designated Operational Entity (DOE). Registration of the project with UNFCCC is under process. Estimated amount of annual average GHG emission reductions 85927 tons of CO2 equivalent.

47.6 MW Wind Power Plant at Jaisalmer - CDM project

CDM Stakeholder Consultation Meeting was carried out at project site. After submission of Project Design Document (PDD) and Project Concept Note (PCN), Host Country Approval was obtained on 16.11.2015 from National CDM Authority (NCDMA), MoEF, Govt. Registration of the project with UNFCCC is under process. Estimated amount of annual average GHG emission reductions 83,426 tons of CO2 equivalent.

6.5 Has the company undertaken any other initiatives on – clean technology, energy efficiency, renewable energy? If yes, please give hyperlink for webpage etc.

Yes. Steps are also taken for green energy generation i.e. Wind Power & Solar Power

In addition to the Wind Power Plants mentioned above, the other initiatives implemented are:

- Carbon Sequestration pilot cum demonstration Plant in CPP
- 160 KWp Roof Top Solar Power Plant at the Corporate Office, Bhubaneswar.
- Solar roof top plant (100 KWp) at Nalco Nagar township, Bhubaneswar.

Information regarding renewable energy is available in our Annual Report.

6.6 Are the Emissions/Waste generated by the company within the permissible limits given by CPCB/SPCB for the financial year being reported?

Emissions/ waste generated by the operating units of the company are within the permissible limits prescribed by CPCB/ SPCB. The environmental statement containing such information is submitted to regulatory authority every year.

6.7 Number of show cause/ legal notices received from CPCB/SPCB which are pending (i.e. not resolved to satisfaction) as on end of Financial Year.

Nil

Principle 7: Business, when engaged in influencing public and regulatory policy, should do so in a responsible manner.

7.1 Is your company a member of any trade and chamber or association? If Yes, Name only those major ones that your business deals with:

Yes, the company plays a leading role in the aluminium industry in particular & in the mines, metal & chemical sector in general and has taken up membership in the following reputed industry associations :

1. *Aluminium Association of India*
2. *Standing Conference of Public Enterprise (SCOPE), New Delhi*
3. *Federation of Indian Mineral Industries (FIMI), New Delhi.*
4. *National Safety Council, Mumbai*
5. *TQM Division of CII*
6. *Quality Circle Forum of India, Secunderabad*
7. *Indian Ceramic Society, Kolkata*
8. *Confederation of Indian Industry (CII), New Delhi*
9. *Utkal Chamber of Commerce & Industries, Cuttack*
10. *Engineering Export Promotion Council, Kolkata*
11. *Federation of Indian Export Organisation, New Delhi*
12. *International Chamber of Commerce, Delhi*
13. *Odisha Productivity Council, Cuttack*
14. *National Institute of Personnel Management, Kolkata*
15. *All India Management Association*
16. *All India Public Sector Sports Control Board, New Delhi*

7.2 Have you advocated/lobbied through above associations for the advancement or improvement of public good? If yes specify the broad areas (E.g., Governance and Administration, Economic Reforms, Inclusive Development Policies, Energy security, Water, Food Security, Sustainable Business Principles, Others)

Our organization strives to utilize the above forums as well as other collective platforms i.e. Aluminium Association of India, FIMI, CII etc. for advocating public policies related to the development of industries, mines for promoting public good within the national & international frameworks on Sustainable Development. The major issues are :

- Enhancing use of Aluminium in various sectors as sustainable and strategic material for the future.*
- Environmental Stewardship*
- Avenues for enhancement of utilization of fly ash*
- Sustainable mining practices including mineral conservation*

- Safety & Health at workplace
- Energy , Water , Mineral conservation
- Climate Change Action Plans
- Inclusive Development & Equitable Growth
- Skill Development & Employment Generation
- Economic Leadership by betterment in industries.
- Employee involvement and Work life balance
- Ethical Business Practices and Good Governance

Principle 8: Businesses should support inclusive growth and equitable development

8.1 Does the company have specified programmes/ initiatives/projects in pursuit of the policy related to Principle 8? If yes, details thereof.

Yes. Specific initiatives taken up during 2015-16, in the peripheral villages in order to promote inclusive growth, are :

- i) Promoting education, sponsoring formal education for children from villages in the periphery of our units at Damanjodi
- ii) Providing health care services at the peripheral villages at our units at Damanjodi and Angul
- iii) Constructing toilets in schools
- iv) Drinking water supply projects
- v) Infrastructure development work
- vi) Plantation work

8.2 Are the programmes/projects undertaken through in-house team/own foundation/external NGO/government structures/any other organization?

CSR activities are undertaken as per the CSR policy i.e. either through NALCO foundation a registered trust of the company or departmentally, based on the CSR projects approved by the Board. As per the policy, depending on projects identified, management has the option to decide to execute CSR projects involving NGOs/Specialized Agencies/ Institutions etc. having proven track record of three years in undertaking such projects.

8.3 Have you done any impact assessment of your initiative?

Yes. Social impact Assessment of projects by Nalco Foundation was conducted by Central University of Odisha, Koraput during the year 2012.

8.4 What is your company's direct contribution to community development projects- Amount in INR and the details of the projects undertaken

For the financial year 2015-16, a total amount **Rs.27.1665 crores** was spent for CSR activities.

Details of projects taken up are:

- i) Providing formal education to 655 students from 18 periphery villages of Damanjodi Sector in three residential schools viz. Kalinga Institute of Social Science (KISS), Bhubaneswar; Koraput Development

Foundation (KDF), Jeypore; Bikash Vidyalaya, Koraput with total annual expenditure related to education, lodging & boarding of the students, borne by the organization.

- ii) 4 Mobile Health Units (MHUs) in M&R Complex, Damanjodi and 3 Mobile Health Units (MHUs) in S&P Complex, Angul are deployed to provide primary health services to the villagers including free medicines, diagnostics and awareness building through Information, Education, Communication (IEC) activities. Total 1, 05,562 patients from periphery villages of Damanjodi and Angul were treated, during the year.
- iii) 433 toilets were constructed in schools of Koraput & Angul district, Odisha and Visakhapatnam district, Andhra Pradesh, in the Swachh Bharat and Swachh Vidyalaya Abhiyan initiated by Govt. of India.
- iv) 250 nos. of temporary toilets were provided at Puri, during Nabakalebar in 2015 with financial assistance from NALCO.
- v) 10 lakh bacteria free drinking water pouches were provided to the pilgrims/devotees during Nabakalebar at Puri in 2015.
- vi) financial assistance was provided for PARAB, Koraput, a community festival organized by the district administration to promote tribal cultural activities.
- vii) projects for drinking water supply, infrastructural development were taken up in periphery villages
- viii) plantation work was taken up in periphery of our units as well as in and around Bhubaneswar.
- ix) A scheme for promoting education of meritorious & poor female students by way of monetary support is implemented as "Nalco Ra Aliali Jhia" in line with Government objective of "Beti Bachao & Beti Padhao".

8.5 Have you taken steps to ensure that this community development initiative is successfully adopted by the community? Please explain in 50 words or so.

Ensuring involvement of the community is vital for implementation of the various projects taken up in the villages. The initiatives are planned with full involvement of the community from conceptual stage itself. Village level development committees put forth their suggestions for development activities to be taken up in a given period, based on which action plan is prepared for community development initiatives in the village. The committee members are also entrusted with responsibility for successful implementation and periodic monitoring of the project.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner.

9.1 What percentage of customer complaints/consumer cases are pending as on the end of financial year i.e. 31st March 2016?

Customer Complaints pending as on 31.3.2016, is 8.7% of total customer complaints i.e. pending as on 31.3.2015 & received during FY:2015-16. Status report on Customer Complaints is:

Complaints pending as on 31.3.2015	1
Complaints received during FY 2015-16	22
Complaints disposed during FY 2015-16	21
Complaints pending as on 31.3.16	2
Percentage of Customer Complaints Pending on 31.3.16	8.7%

Out of the two customer complaints pending as on 31.03.2016, one has been already been resolved on 12.05.2016. As on date, only one customer complaint is pending.

9.2 Does the company display product information on the product label, over and above what is mandated as per local laws?

No, we do not display any product information beyond what is mandated.

We comply with the requirements with respect to product labeling by following the practices as prescribed by laws. For e.g. in case of Aluminium metal, the product grade, stack no., bundle no., net weight is displayed on the product label. In case of Rolled Products, Name of the Company & production unit and place, Coil No, Grade, Size (Thickness X Width)in mm, Net Weight (in kgs.), Signature of the inspecting authority, Date of Packaging, No. of sub-stacks and total no. of sheets per packet (for Rolled sheets only) is displayed on the product label.

9.3 Is there any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending as on end of financial year. If so, provide details thereof.

No.

There has not been any case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years.

9.4 Did your company carry out any consumer survey/ consumer satisfaction trends?

Yes.

The Sustainable Development Policy highlights economic issues to be addressed for enhancing value creation for Stakeholders and the Quality Policy focuses on meeting the needs and expectations of the customer by consistently improving our performance as the chosen path in achieving business excellence. Customer feedbacks received through various formal or informal channels provide us inputs to periodically review the important processes i.e. marketing, production, process control etc. plan our initiatives for enhancing Customer Satisfaction.

Customer satisfaction survey is conducted every financial year on six monthly basis, for period ending September & March. The survey helps us to compute customer satisfaction index and capture customers' perceptions. The trends are then analysed to internally benchmark our own performance to improve further.

During 2015-16, all respondents under half-yearly Customer Satisfaction surveys ranked our overall performance higher than the stipulated CSI target as per MOU with Ministry of Mines. Moreover, the percentage of customers responding to the survey and ranking us above stipulated target shows an increasing trend i.e. increase from 89.30% in 2014-15 to 90.60% in 2015-16.

A) Conservation of Energy :

i) Steps taken and impact on Conservation of Energy:

Major initiatives on Conservation of Energy, implemented at different units during the financial year 2015-16, and the impact there of, are indicated below:

a) Bauxite Mines

1. Replacement of condenser coils damaged due to wind flow in the outdoor units of 4 x 13 Ton air conditioners (AC 2 & 4) & modification of the mounting arrangements of all 04 nos. of ACs have been carried out thus enabling efficient cleaning leading to net annual energy savings of 3 TOE (approx.)
2. 50 nos. of existing ceiling fans were replaced with 5 star energy efficient ceiling fans, resulted in net annual savings of 0.1 TOE (approx.).

b) Alumina Refinery

1. The existing Air pre heater (APH) unit in the Boiler #2 of SPP was replaced with a new APH, thus achieving effective heat transfer from flue gas to combustion air enhancing combustion efficiency. This has resulted in energy savings of 2450 TOE.
2. Installation of Magna drive coupling in conveyors 5A, 5B and 6B has contributed to reduction in electrical energy consumption of 1.88TOE, besides obtaining other operational advantages i.e. significant reduction in vibration, ease in O&M etc.
3. Dump steam condenser steam control valves were successfully replaced thus eliminating steam passing, resulting in energy savings of 2912TOE.
4. Modifications in the Plate heat Exchanger (PHE) at evaporation area was successfully carried by use of the old PHE plates from 06 area, contributing to savings in thermal energy of about 205 TOE. This modification also ensured availability of adequate amount of cold sodic condensate to SPP.

c) Smelter Plant

The specific DC energy consumption achieved in the Smelter Plant during the F.Y. 2015-16, was 13453 KWHr/MT of Hot metal against the assigned target of 13500 KWHr/MT. This was achieved by use of ALPSYS Pot regulation system in all the Pot Lines thus reducing anodic problems, wedge drop & stem beam drops. Use of graphitized cathode blocks, slotted anodes and increase in Anode stub hole and pin length in running pots also improved energy efficiency. A few other projects taken up at Smelter in the Perform, Achieve and Trade Cycle 1 were completed during this year, i.e.

- i) Replacement of TFL tubes with T5 lamps.
- ii) Use of timer based lighting system in plant & township areas.
- iii) Use of energy efficient motors in place of standard motors.

All these contributed to total annual energy savings of 1515 TOE.

d) Captive Power Plant

1. Installation of one energy efficient 850 KW motor (Siemens make) in the Auxiliary Cooling Water system at Cooling Water Pump House is estimated to have contributed to savings in power consumption of about 60 TOE (approx).

2. Procurement and installation of energy efficient tube light fittings (2 x 28 Watt) and electronic choke in place of copper chokes for energy saving purposes is in progress. This year total 474 nos. of tube light fittings and 693 electronic chokes have been replaced which will save 78.5 TOE per annum.
3. In order to improve the cooling tower performance, inspection doors of Cooling Tower fans of 4 nos. of units have been provided with extra locking arrangement so that dislodging of doors are avoided. In addition to this damaged drift eliminators in cooling tower-7&8 were replaced to improve the performance. By these initiatives i.e. sealing of doors and replacement of drift eliminators, effectiveness of cooling tower is estimated to improve by about 1%.

Energy Conservation projects proposed or in progress during 2015-16, with completion planned in 2016-17 are :

1. **Alumina Refinery :** Two nos. of Aluminate liquor pumps i.e. P-128 and P-129 will be upgraded to energy efficient higher capacity pumps, thus achieving reduction in electrical energy consumption by 8%.
2. **Smelter :**
 - Use of graphitised cathode blocks in 140 Pots there by achieving energy saving of 340.5 TOE per annum.
 - Replacement of TFL Lamps with LED Lamps contributing to energy saving of 2.5 TOE annually.
3. **CPP :** An improvement initiative is taken up to reduce water drawl from river Brahmani. A rain water harvesting pond has been already excavated. Erection of pipe line and commissioning of 02 nos. pumps at rain water harvest pond is in process and will be completed shortly. This will reduce the drawl of river water by about 200 M3/Hr i.e. about 4% reduction and contribute to savings in energy consumption of about 3 TOE per annum.

ii) The steps taken for utilising alternate sources of energy :

1. 100 KWp SPV Rooftop Plant : 100 KWp SPV Rooftop Plant at Nalco Nagar, Bhubaneswar was commissioned on 25.09.2015.
2. 100 MW Wind Power Plant : Order was placed during the year i.e. Jan' 2016 for installation of two wind power projects: 50.4 MW in Maharashtra and 50.0 MW in Rajasthan.
3. 20 MW Solar PV Power Project : Setting up of a 20 MW Solar PV Power Project in Madhya Pradesh is planned.
4. 50 KWp Rooftop Solar PV Plant : Order was placed during March 2016 for installation of one 50 KWp rooftop solar project at Nalco Research and Technology Centre (NRTC), Gothapatna, Bhubaneswar.
5. 10 KWp Rooftop Solar PV Plant : One 10 KWp solar power plant has been planned to be set up on the roof top of Administration Building at Mines.

iii) The capital investment on energy conservation equipments :

The expenditure done in Smelter during F.Y. 2015-16 is Rs.3348.00 Lakhs detailed as under :

- a. Procurement & installation of energy efficient motors : Rs.7.40 Lakhs
- b. Procurement & installation of T-5 Lighting system : Rs.12.60 Lakhs
- c. Procurement & laying of graphitised cathode blocks in pots: Rs.3328.00 Lakhs

B) Technology Absorption, Adaptation & Innovation:

a. M&R Complex , Damanjodi:

S.I No.	Details of modification	Benefits thereof
1.	Substitution of Natural flocculant Wheat Bran used in washers with Synthetic flocculants	Optimisation of production & Wheat Bran, a natural fodder can be suitably replaced
2.	Production of special grade alumina with addition of mineraliser	Value added product

b. Smelter Plant, Angul:

Sl. No.	Details of Modification	Benefits thereof
1	Erection & commissioning of three dedusting units in Rodding shop-1 of carbon Plant.	Reduction in dust level in shop floor making the working floor more environmental friendly.
2	Revamping of Dedusting system of Butt handling and crushing system of Rodding Shop-1	Improvement in working environment by reduction of shop floor dust, recovery and recycle of dust thus reduction in cost of fresh coke.
3	Online butt weighing system in Rodding Shop-1	Weightment of all butts in the process, tracking and recording of the same. Facilitates measurement of carbon consumption in Potline and help in deciding anode change shift cycle in Potline.
4	Installation of Flue Wall Building Machine in Anode Baking Furnace-III.	Facilitate and expedite the flue wall replacement work in ABF-II & III. Improvement in availability of FTAs.
5	Integration of Product wise weightment data of bar code product label printing system with SAP for coils produced in WRM 1 & 2 of CH-A.	This system will help tracking WRM coil produced / weighed in different shifts through uploading of weight data / reports to SAP system which will help immensely for monitoring and dispatch of the wire rod product.
6	In CH-B, ICM 1&2 furnaces 1, 2, 3 & 4 logic modification done for establishing Furnace burner firing command from furnace temperature instead of from pilot burners during in operation furnace flame outs.	Facilitate in precise control of the furnace flame establishment avoiding use of pilot burners other than cold start-ups and drop of molten metal temperature due to flame outs. There is a huge savings in LPG gas.
7	Installation of p & f weigh station with load cell(3.5 mt) with control accessories for Rodding Shop-1	Will be helpful in getting a more accurate consumption of carbon in Pot Line.
8	Installation of new Door and drive system in Cast house-A, ICM-1, Holding furnace No-1.	Saving of fuel oil

DETAILS OF TECHNOLOGY IMPORTED /UPGRADED DURING LAST 5 YEARS:

Philosophy on code of governance

Corporate governance refers to the mechanisms, processes and relations by which corporations are controlled, directed and governed. Corporate governance includes the processes through which corporations' objectives are set and pursued in the context of the regulatory, social and commercial environment. Governance mechanism oversees the actions, policies, practices, strategies and decisions of corporations, their agents and affected stakeholders. Strict adherence to the regulatory norms and transparency in every facet of the activities is the hallmark of the Company.

National Aluminium Company Ltd. (NALCO), is a Central Public Sector Enterprise (CPSE) under the administrative control of the Ministry of Mines, Government of India. Its shares are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). Being a listed Company, NALCO has been pursuing the Corporate Governance practices in true spirit as stipulated under Clause 49 of the Listing Agreement. Effective from 1st December, 2015, NALCO is subject to the requirements under the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Besides, NALCO is also following the guidelines on Corporate Governance for CPSEs prescribed by Department of Public Enterprise (DPE) which became mandatory w.e.f. from May 2010.

NALCO management believes in the inalienable rights of the shareholders as the true owner of the Organization and their role as trustees of the shareholders as well as other stakeholders.

Processes put in place to provide for Corporate Governance framework

- i) A sub-committee of the Board called "Ethics and Corporate Governance Committee" oversees the Corporate Governance implementation in the Company.
- ii) NALCO has been filing the report on Corporate Governance on quarterly basis within stipulated time to the Stock Exchanges in the prescribed format.
- iii) It is publishing a detailed report on Corporate Governance practices followed in the Company, in the Annual Report every year.
- iv) As a part of compliance of the DPE guidelines, NALCO is also submitting self-appraisal report on Corporate Governance on quarterly and annual basis to the DPE through the Administrative Ministry. NALCO has been scoring 'Excellent' grade as per the self-appraisal report submitted to DPE. The self-appraisal report is also uploaded in NALCO website for public view.
- v) NALCO was voluntarily getting Secretarial Audit done by a practicing Company Secretary Firm and publishing the same along with the Annual Report of the Company, every year. Now, Secretarial Audit has become mandatory for Listed Companies under the Companies Act, 2013.
- vi) Statutory Auditors conduct audit on the implementation of Corporate Governance practices and furnish a certificate on the Corporate Governance which is placed before the shareholders as a part of the Annual Report.
- vii) Information relating to Corporate Governance in prescribed format is provided to the C&AG every year.

The broad framework of the Company's governance is based on the following principles:

1. Optimum combination of Executive and Non-Executive Directors on the Board.
2. Formation of various Committees, statutory as well as non-statutory, for proper and judicious delegation of power.
3. Timely availability of information to each and every member of the Board and Board Committees for proper discharge of their fiduciary duties.
4. Robust system and processes in place for internal financial control.
5. Timely disclosure and dissemination of operational, commercial and financial information to the stakeholders.

The Company is in compliance with the principles of Corporate Governance as prescribed under the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, except to the extent, as specified below:

I. Board of directors

(a) The composition of the Board as on 31st March, 2016 is as follows:

- i. Six full time (Executive) Directors including Chairman-cum-Managing Director.
- ii. Two Part-time official Directors, basically nominee directors from Government of India.
- iii. Five Part time non-official (Independent) Directors who are appointed by the Government of India w.e.f. 21.11.2015.

While Non-executive Directors constitute 54% of the total strength of the Board, the Independent Directors constitute 38% of the total strength of the Board. Although the above composition is in conformity with the provisions under Section 149 of the Companies Act, 2013, yet it is not in compliance with the SEBI (LODR) Regulations, 2015 and DPE guidelines on Corporate Governance.

(b) The following changes took place in the composition of the Board during the year under report:

- i. Dr. Tapan Kumar Chand was appointed as CMD w.e.f. 27th July, 2015. On superannuation of Shri Ansuman Das, CMD on 30.04.2016, Shri N R Mohanty, Director (P&T) was given additional charge of the post of CMD till 26.07.2015.
- ii. There were only 2 Independent Directors at the beginning of the financial year. After they ceased to hold office w.e.f. 10.07.2015, there were no Independent Directors on the Board till 20.11.2015. Five Independent Directors were appointed on the Board w.e.f. 21.11.2015. There is still a need to appoint another 3 Independent Directors on the Board to comply with the requirements under the SEBI (LODR) Regulations, 2015 and DPE guidelines on Corporate Governance.

(c) The details of each member on the Board along with the number of directorship / committee membership held by them in other public limited companies as on 31st March, 2016 is given below:

II. Independent Directors

- Independent Directors are the Non-executive Directors who fulfill the conditions of independence specified under Section 149 of the Companies Act, 2013 and Regulation 16(b) of the SEBI Regulations. NALCO being a Government Company, the Independent Directors are appointed by the President of India and the terms and conditions are fixed by the Administrative Ministry. Generally, Independent Directors are appointed for a tenure of 3 years which is in compliance with the Act.
- A formal letter of appointment is issued to the Independent Directors on their appointment as Director on the Board. The letter inter-alia explains the role, function, duties and responsibilities as Director of the Company.
- All the Independent Directors confirm that they meet the criteria of independence as mentioned under the Companies Act and Listing Regulations. Independent Directors bring with them rich experience in varied fields and help the organization in taking appropriate policy decisions at the Board level.
- The Company conducts an acclimatization programme for the Independent Directors on their appointment on the Board. The Company also nominates the Independent Directors to attend various familiarization programmes being conducted by ASSOCHAM, CII, SCOPE, DPE etc. in this regard. Appointment of Independent Directors are posted in the Company's website www.nalcoindia.com. The details of the familiarization programme attended by the Independent Directors are also uploaded on Company's website.
- During the year, one meeting of the Independent Directors was held on 30th May, 2015.
- None of the Non-executive Directors hold any shares or convertible instruments in the Company.
- Independent Directors are not entitled for stock option in the Company.

III. Various Committees of the Board

The following 9 Committees are constituted by the Board with a judicious mix of Executive and Non-executive Directors:

Statutory Committees

- Audit Committee

- b. Nomination & Remuneration Committee
- c. Stakeholders Relationship Committee
- d. CSR & Sustainability Development Committee
- e. Technology Committee (as per DPE guidelines)
- f. Risk Management Committee

Non-statutory Committee

- a. Human Resources Committee
- b. Committee of Directors for Projects and New Ventures
- c. Ethics & Corporate Governance Committee

Besides, there are 4 more Committees where only Executive Directors of the Company are members. Details of these Committees are as follows:

- i. Investment Committee
- ii. Committee of Directors for Sales
- iii. Committee of Directors for Procurements
- iv. Share Transfer Committee

The terms of reference of the Committees are approved by the Board.

A. Audit committee

- i) The Audit Committee was set up in June, 1999 and roles and powers of the Committee have been changed from time to time to fall in line with the provisions under the Companies Act, SEBI Regulations and DPE guidelines.
- ii) Due to non-availability of requisite no. of Independent Directors on the Board, the composition of the Committee was not in line with the requirements under the Companies Act, 2013, SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 and DPE guidelines on corporate governance during a period from 10.07.2015 to 27.12.2015. During this period, two no. of Audit Committee meetings took place on 12.08.2015 and 12.11.2015. The fact that the composition of the Audit Committee was not in compliance with the requirement of Companies Act, 2013, SEBI (LODR) Regulations, 2015 was brought to the knowledge of the Audit Committee, the Board and the Stock Exchanges where the shares are listed.
- iii) The Audit Committee was reconstituted from time to time during the year. The composition as on 31st March, 2016 is as follows:

Name	Category	Position
Shri P K Nayak	Non-executive Independent	Chairman
Shri Dipankar Mahanta	Non-executive Independent	Member
Shri S Sankararaman	Non-executive Independent	Member
Prof. Damodar Acharya	Non-executive Independent	Member
Director (P&T)	Executive Non-Independent	Member
Director (Production)	Executive Non-Independent	Member

Besides, Director (Finance) is invitee to the Committee. ED-Company Secretary is the Secretary to the Committee.

iv) Meetings and Attendance

Five meetings of the Audit Committee were held during the year on 30.05.2015, 09.07.2015, 12.08.2015, 12.11.2015 & 11.02.2016. The maximum gap between any two Audit Committee meetings was 92 days.

(a) The composition of the Audit Committee and details of the meetings attended by its members are given below:

Member of Audit Committee	Meetings held	Meetings attended
Shri P.K. Nayak	1	1
Shri D. Mahanta	1	1
Dr. S. Sankararaman	1	1
Prof. D. Acharya	1	1
Shri N.R.Mohanty	3	3
Shri V.Balasubramanyam	3	3
Dr. N. K. Singh (upto 22.12.2015)	4	3
Shri Qaiser Shamim (upto 10.07.2015)	2	2
Shri Sanjiv Batra (upto 10.07.2015)	2	1

v) The Audit Committee invites such of the executives, as it considers appropriate particularly the head of Internal Audit, representatives of Statutory Auditors and Cost Auditors to be present in the meetings. The Company Secretary acts as Secretary to the Audit Committee.

vi) The terms of reference of the Audit Committee are broadly as follows:

Powers of the Audit Committee

AUDITORS' CERTIFICATE

To
The Members
National Aluminium Company Limited,
Bhubaneswar

We have examined the compliance of conditions of Corporate Governance by NATIONAL ALUMINIUM COMPANY LIMITED, for the year ended on 31st March, 2016 as stipulated in Clause 49 of the Listing Agreement of the said Company with Stock Exchanges and the provisions of Regulation 17(1)(b) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations").

The compliance of conditions of Corporate Governance is the responsibility of the management. Our examination was limited to procedures and implementation thereof, adopted by the company for ensuring the compliance of the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the company.

In our opinion and to the best of our information and according to the explanations given to us, and the representation made by the Management, we certify that the Company has complied with the conditions of Corporate Governance as stipulated in the above mentioned Listing Agreement and Listing Regulations subject to:

Non Compliances: Composition of Board of Directors:

1. As per the provisions of Revised Clause 49(II) of the Listing Agreement and the provisions of Regulation 17(1)(b) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), where the Chairperson of the Board of directors is a Non-Executive Director, at least one-third of the Board of Directors shall comprise of Independent Directors and where the listed entity does not have a regular Non-Executive Chairperson, at least half of the Board of directors shall comprise of Independent Directors.

The company did not have requisite number of independent directors on its Board during whole of the financial year 2015-16.

Non Compliances: Composition of Audit Committee:

2. As per Revised Clause 49(III) of the Listing Agreement, the presence of at least two (2) Independent Directors is required to constitute a valid quorum in an Audit Committee meeting.

In the 96th (Adjourned) Audit Committee meeting held on 9th July 2015, only one (1) Independent Director and one (1) Part-time Official Director were present. The Company did not have any Independent Director from 10.07.2015 to 20.11.2015. Consequently, in the 97th Audit Committee meeting held on 12th August 2015 and in the 98th Audit Committee meeting held on 12th November 2015, no Independent Director was present in the said meetings. Hence, the Composition of the Committee and the quorum for the meetings were not in compliance with the provisions of Section 177 of the Companies Act, 2013, DPE Guidelines and Revised Clause 49 (III) of the Listing Agreement.

3. As per the Revised Clause 49 (III) of the Listing Agreement, the Chairman of the Audit Committee must be an Independent Director.

The Company did not have any Independent Director from 10.07.2015 to 20.11.2015, the reconstitution of the Committee on 12th August, 2015 was not in compliance with the provisions of listing agreement. However the reconstitutions of the committee on 26thDecember, 2015 was in compliance with the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Non Compliances: Composition of Nomination and Remuneration Committee:

During the financial year, no meeting of Nomination and Remuneration Committee was held.

4. The Nomination and Remuneration Committee should have 50% of Directors as Independent Directors and the Chairman of the committee shall also be an Independent Director.

The Company did not have any Independent Director from 10.07.2015 to 20.11.2015, the reconstitution of the Committee on 12th August, 2015 was not in compliance with the provisions. However the reconstitutions of the committee on 26thDecember, 2015 was in compliance with the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

We further state that such compliance is neither an assurance as to the future viability of the company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

5.	Shri Pravat Keshari Nayak	Director	21.11.2015	-
6.	Prof. Damodar Acharya	Director	21.11.2015	-
7.	Shri Maheswar Sahu	Director	21.11.2015	-

At the beginning of the year, there were six (6) Whole time Directors (Executive Directors), two (2) Part-time official Directors and two (2) Part – time Non-official (Independent) Directors on the Board of the Company. Out of six whole time Directors, the tenure of Shri Ansuman Das, Chairman-cum-Managing Director ended on 30.04.2015 and hence he ceased to be the Chairman-cum-Managing Director w.e.f. 01.05.2015. Shri N.R. Mohanty, Director (P&T) was entrusted additional charge of the post of Chairman-cum-Managing Director from 01.05.2015 to 26.07.2015.

Out of two Part-time official directors, the tenure of Dr. Niranjana Kumar Singh, Part-time Official Director ended on 22.12.2015 and in his place Shri. N. B. Dhal has been appointed w.e.f. 23.12.2015.

The tenure of two Part-time Non-official (Independent) Directors ended on 09.07.2015 and five Part-time Non-official (Independent) Directors were appointed on 21.11.2015. Hence, the Company had six (6) Whole- time Directors, two (2) Part-time Official Directors and five (5) Part-time Non-official (Independent) Directors on the Board as on 31st March, 2016.

At the end of the year, the Composition of the board was in Compliance with the provisions Section 149(4) of the Companies Act, 2013.

Non Compliances:

- As per the provisions of Section 149(4) of the Companies Act, 2013, every listed public company should have at least one-third of the total number of directors as Independent Directors.

There were only two (2) Independent Directors on the Board of the Company till 09.07.2015 and there were no Independent Directors on the Board of the Company from 10.07.2015 to 20.11.2015. Hence, the composition of the Board during the period 01.04.2015 to 20.11.2015 was not in compliance with the provisions of Section 149(4) of the Companies Act, 2013.

- As per the provisions of Revised Clause 49(II) of the Listing Agreement and the provisions of Regulation 17(1) (b) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”), where the Chairperson of the Board of directors is a Non-Executive Director, at

least one-third of the Board of Directors shall comprise of Independent Directors and where the listed entity does not have a regular Non-Executive Chairperson, at least half of the Board of directors shall comprise of Independent Directors.

DPE guidelines on Corporate Governance also contain similar provisions as regards to the composition of Directors. Since, the Chairman of the Company is an Executive Director, the Company was required to have eight (8) Independent Directors. The Company had two (2) Independent Directors at the beginning of the year and five (5) Independent Directors at the end of the financial year.

In view of the above, the composition of the Board was not in compliance with the provisions of Regulation 17(1) (b) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and DPE Guidelines.

However, for early appointment of requisite number of Independent Directors, the Company has been regularly following up with the Ministry of Mines, Government of India.

BOARD MEETING

During the financial year, nine (9) Board Meetings were held. Adequate notice was given to all Directors for all Board Meetings. Agenda and detailed notes on agenda were sent at least 7 days in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meetings and for meaningful participation at the meetings.

All decisions at the Board Meetings were carried out unanimously and recorded in the minutes book of the meeting.

STATUTORY COMMITTEES OF THE BOARD:

(i) AUDIT COMMITTEE:

The Audit Committee of the Board of Directors of the Company continued from 01.04.2015 to 09.07.2016 with the following members.

- Shri Qaiser Shamim, Independent Director -Chairman

- Dr. Niranjana Kumar Singh, Part-time Official Director - Chairman
- Shri S.C. Padhy, Director (HR) -Member
- Shri K.C. Samal, Director (Finance) -Member

Consequent upon the appointment of five (5) Independent Directors on the Board on 21st November, 2015, the Committee was again reconstituted on 26th December, 2015 with the following members-

- Shri Maheswar Sahu, Independent Director - Chairman
- Shri Pravat Keshari Nayak, Independent Director - Member
- Shri S. Sankararaman, Independent Director - Member
- Prof. Damodar Acharya, Independent Director - Member

Non Compliance:

Since Company did not have any Independent Director from 10.07.2015 to 20.11.2015, the re-constitution of the Nomination and Remuneration Committee on 12th August, 2015 was not in compliance with the provisions of Section 178 (1) of the Companies Act, 2013.

However the reconstitution of the committee on 26th December, 2015 was in compliance with the provisions of Section 178 (1) of the Companies Act, 2013.

MANAGEMENT'S EXPLANATION ON THE QUALIFYING REMARKS OF SECRETARIAL AUDITOR

The qualifying remarks, reported by the Secretarial Auditor in their report for the Financial Year ended 31st March, 2016 and the explanations of the management are tabulated below:

Sl. No.	Qualifying remarks of Secretarial Auditor	Management's explanation
01.	<p>There were only two (2) Independent Directors on the Board of the Company till 09.07.2015 and there were no Independent Directors on the Board of the Company from 10.07.2015 to 20.11.2015. Hence, the composition of the Board during the period 01.04.2015 to 20.11.2015 was not in compliance with the provisions of Section 149 (4) of the Companies Act, 2013.</p> <p>DPE Guidelines on Corporate Governance also contain similar provisions as regards to the composition of Directors. Since the Chairman of the Company is an Executive Director, the Company was required to have eight (8) Independent Directors. The Company have two (2) Independent Directors at the beginning of the year and five (5) Independent Directors at the end of the financial year.</p> <p>In view of the above, the composition of the Board was not in compliance with the provisions of Regulation 17(1)(b) of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and DPE Guidelines.</p>	<p>President of India is the appointing authority for the Directors as per the Articles of Association of the Company. The Company has been regularly following up with Ministry of Mines, Govt. of India for early appointment of requisite number of Independent Directors for complying with the provisions of the Companies Act, 2013, SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and DPE Guidelines.</p>
02.	<p>(a) In the 96th (Adjourned) Audit Committee meeting held on 9th July, 2015, only one (1) Independent Director and one (1) Part-time Official Director were present. Since Company did not have any Independent Director from 10.07.2015 to 20.11.2015, in the 97th and 98th Audit Committee meetings held on 12th August 2015 and 12th November 2015 respectively, no Independent Director was present in the respective meetings. Hence the composition of Committee and the quorum for the meeting were not in compliance with the provisions of Section 177 of the Companies Act, 2013, DPE Guidelines and Revised Clause 49(III) of the Listing Agreement.</p> <p>(b) As per the Revised Clause 49(III) of the Listing Agreement, the Chairman of the Audit Committee must be an Independent Director. Since Company did not have any Independent Director from 10.07.2015 to 20.11.2015, the reconstitution of the Committee on 12th August, 2015 was not in compliance with the provisions of listing agreement. However the reconstitutions of the committees on 26th December, 2015 was in compliance with the provisions of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.</p>	<p>(a) In the 96th (Adjourned) Audit Committee meeting held on 9th July, 2015, only one (1) Independent Director and one (1) Part time official Director were present. Hence, valid quorum of presence of two Independent Directors in terms of Revised clause 49(III) of the Listing Agreement was not present in the said meeting. The fact that requisite quorum was not present brought to notice of the Audit Committee and recorded in the minutes of the meeting .</p> <p>There were no Independent Directors on the Board of the Company from 10.07.2015 to 20.11.2015, hence no Independent Director was present during the 97th and 98th Audit Committee meetings held on 12th August 2015 and 12th November 2015 respectively.</p> <p>(b) As there were no Independent Directors on the Board of the Company from 10.07.2015 to 20.11.2015, the Chairman of the Audit Committee meetings during the said period was not an Independent Director.</p>

Sl. No.	Qualifying remarks of Secretarial Auditor	Management's explanation
03.	Since the Company did not have any Independent Director from 10.07.2015 to 20.11.2015, the re-constitution of the Nomination and Remuneration Committee on 12th August, 2015 was not in compliance with the provisions of Section 178(1) of the Companies Act, 2013.	As there were no Independent Directors on the Board of the Company from 10.07.2015 to 20.11.2015, the reconstitution of the Nomination and Remuneration Committee made on 12.08.2015 was not in compliance with the provisions of Section 178 (1) of the Companies Act, 2013. However, the constitution was in compliance with the provisions of Section 178 (1) of the Companies Act after its reconstitution on 26.12.2015 after appointment of 5 Independent Directors on the Board of the Company w.e.f. 21.11.2015.
04.	Since the Company did not have any Independent Director from 10.07.2015 to 20.11.2015, the re-constitution of the CSR and Sustainability Development Committee on 12th August, 2015 was not in compliance with the provisions of Section 135(1) of the Companies Act, 2013.	As there were no Independent Directors on the Board of the Company from 10.07.2015 to 20.11.2015, the reconstitution of the CSR & Sustainability Development Committee made on 12.08.2015 was not in compliance with the provisions of Section 135 (1) of the Companies Act, 2013. However, the constitution was in compliance with the provisions of Section 135 (1) of the Companies Act after its reconstitution on 26.12.2015 after appointment of 5 Independent Directors on the Board of the Company w.e.f. 21.11.2015.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF NATIONAL ALUMINIUM COMPANY LIMITED

Report on the Standalone Financial Statements

We have audited the accompanying standalone financial statements of **National Aluminium Company Limited** ("the Company"), which comprises Balance Sheet as at 31st March 2016, the Statement of Profit & Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's board of directors is responsible for the matters stated in section 134(5) of the Companies Act 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters, which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in

conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31st March, 2016, and its profit and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we, on the basis of information and explanations given to us, give in the Annexure "A" to this report, a statement on the matters specified in paragraphs 3 and 4 of the Order to the extent applicable.
2. In compliance to directions of the Comptroller and Auditor General of India u/s.143(5) of the Act, we give in Annexure "B" to this report a statement on the matters specified therein.
3. As required by section 143(3) of the Act we report, to the extent applicable, that:
 - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c. The Balance Sheet, Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e. Section 164(2) of the Act regarding disqualification of directors is not applicable to the Company by virtue of Notification No. G.S.R. 463(E) dated 05.06.2015 issued by the Ministry of Corporate Affairs, Govt. of India.
 - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure "C".
 - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

Registration formalities in respect of office space for 6459 sft. in Kolkata is also not completed.
- ii) As explained to us, all inventories, except stocks relating to expansion project, stocks lying with third parties and stocks-in-transit have been physically verified during the year by firms of Chartered Accountants appointed by the management. The frequency of verification is reasonable. The discrepancies noticed on physical verification between physical stocks and book records relating to shortage have been dealt in the books of accounts while excess have been ignored;
- iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Consequently, clauses (iii) (a), (b) & (c) of paragraph 3 of the Order are not applicable;
- iv) Section 185 of the Act regarding loans to directors is not applicable to the Company by virtue of Notification No. G.S.R. 463(E) dated 05.06.2015 issued by the Ministry of Corporate Affairs, Govt. of India. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act with respect to the loans and investments made.
- v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public.
- vi) We have broadly reviewed the books and records maintained by the Company as specified by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013 in respect of manufacturing activities and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. We have, however, not made a detailed examination of the records with a view to determine whether they are accurate and complete.

- vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion the Company is generally regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income tax, sales tax, service tax, duty of customs, duty of excise, value added tax, cess, electricity duty and other material statutory dues with the appropriate authorities and there are no undisputed statutory dues as at 31st March, 2016 outstanding for a period of more than six months from the date they became payable.

Annexure to the Independent Auditor’s Report of even date on the Standalone Financial Statements of National Aluminium Company Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **NATIONAL ALUMINIUM COMPANY LIMITED** (“the Company”) as of March 31, 2016 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in

accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) OF THE COMPANIES ACT, 2013 ON THE FINANCIAL STATEMENTS OF NATIONAL ALUMINIUM COMPANY LIMITED, BHUBANESWAR FOR THE YEAR ENDED 31 MARCH 2016.

The preparation of financial statements of National Aluminium Company Limited for the year ended 31 March 2016 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139(5) of the Act are responsible for expressing opinion on the financial statements under section 143 of the Act based, on independent audit in accordance with standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 28 May 2016.

I, on the behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit under section 143(6)(a) of the Act of the financial statements of National Aluminium Company Limited for the year ended 31 March 2016. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records. On the basis of my audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report.

Note:

- The Company has considered Chemicals and Aluminium as the two primary business segments. Chemicals include Calcined Alumina, Alumina Hydrate and other related products. Aluminium includes aluminium ingots, wire rods, billets, strips, rolled and other related products. Bauxite produced for captive consumption for production of alumina is included under chemicals and power generated for captive consumption for production of Aluminium is included under Aluminium segment. Wind Power Plant commissioned primarily to harness the potential renewable energy sources is included in the unallocated Common segment.
- India and Outside India are the two geographical segments. Since all production and other facilities are located in India, segment assets except export debtors are shown under one geographic segment i.e. India.
- Inter-segment transfer of Calcined Alumina is considered at average sales realization from export sales during the period less freight from Refinery to Port at Vizag plus export incentive. Transfer of power from Aluminium segment to Chemical segment is considered at the annual / periodic average purchase price of power from State Grid at Alumina Refinery.
- Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities. Revenue, expenses, assets and liabilities, which relate to the enterprise as a whole and are not allocable on a reasonable basis, have been included under Unallocated Common segment.

Significant Accounting Policies

1. BASIS OF ACCOUNTING.

The financial statements are prepared under historical cost convention on accrual basis of accounting, in accordance with the generally accepted accounting principles in India, relevant provisions of the Companies Act, 2013 and applicable accounting standards prescribed under Sec. 133 of Companies Act, 2013.

2. USE OF ESTIMATES.

In preparing the financial statements, the estimates and assumptions that may have bearing on the amount of assets or liabilities or contingent liabilities reported as at the date of financial statements and/or the amount of income or expenses declared during the period, have been made. Variation with the actual is recognized in the year in which the same is crystallized.

3. CLASSIFICATION OF ASSETS AND LIABILITIES.

Based on the nature of business, operating cycle of 12 months has been taken for the purpose of current and non-current classification of assets and liabilities. Accordingly, all assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013.

4. FIXED ASSETS.

- 4.1 All tangible fixed assets are stated at historical cost net of accumulated depreciation and accumulated impairment loss, if any. Cost includes all direct expenditure of acquisition net of CENVAT/VAT credit, attributable indirect expenses and borrowing cost, wherever applicable.
- 4.2 Expenditure on existing tangible assets towards renovation and modernization resulting in increased life and/or efficiency is added to the cost of related assets.
- 4.3 Expenditure on development of land including leasehold land is capitalized as part of cost of land.
- 4.4 Intangible Assets are stated at acquisition cost less accumulated amortization.
Mining Rights (including payments made to Government Authority towards restoration of land, forest, wildlife etc. in relation to the bauxite mines), User Right for Jointly Controlled Asset, ERP & RDBMS and other Software User Rights, License & Franchise (Technical Knowhow Right) and R&D knowhow are treated as intangible assets.
- 4.5 Machinery spares (insurance spares) that are specific to a fixed asset valuing more than Rs.1 lakh per unit are capitalized along with the fixed asset.
- 4.6 Fixed assets retired from active use and held for disposal are stated at net book value less provision for doubtful realization, if any, and considered as other current asset till the time of its disposal.
- 4.7 Components of Plant & Machinery having different useful lives are separately recognized. The cut-off value of each component for such separate recognition is Rs.1 Crore. Value of component with different useful life crossing the threshold limit when replaced is recognized as a separate component.

5. DEPRECIATION.

- 5.1 Depreciation on tangible fixed assets is provided on straight-line method over the useful life of the asset as prescribed in Schedule II of the Companies Act 2013 or life assessed by the Management whichever is lower.
- 5.2 In respect of the following assets, a higher rate of depreciation is considered based on the lower useful life ascertained by the Management. Depreciation and amortization method, useful life and residual value are reviewed periodically including at each financial year end:
 - a) Life of immovable fixed assets at Bauxite Mines is limited to the period up to which Bauxite reserve is available at respective block of mines.
 - b) Life of thermal power generation plant at CPP and Steam Power plant at Refinery is considered as 30 years and 25 years respectively.
 - c) Lives of Red Mud Pond & Ash Pond at Alumina Refinery and Ash Ponds at Captive Power Plant are based on their estimated remaining useful life, evaluated on the basis of technical estimates made periodically.
- 5.3 Fixed assets which are subject to componentization, comprises of main assets, componentized assets and remainders if any. Main assets have the life as prescribed under Schedule-II of the Companies Act 2013 or life assessed by the technical committee whichever is lower. Componentized assets having value of Rs.1 crore or above have the life as assessed by the Technical Committee whereas the remainders, if any, carry the life of main assets.

Significant Accounting Policies

- 5.4 The residual values of plant & machinery, vehicles, mobile equipments, earth moving equipments, railway facilities, rolling stock and residential quarters are considered to be 5% of the original cost. For all other assets, the residual value is considered to be Nil as per technical estimation.
- 5.5 Intangible assets are amortized on a straight-line basis as follows
 - a) Software classified as intangible assets are amortized over a period of 3 years.
 - b) Mining Rights (i.e NPV and other incidental payments) is amortized over the period for which the mining right is available. Other incidental payments in connection thereto are amortized over a period of 20 years from the date of payment.
 - c) License for Technical Knowhow is amortized over 10 years from the date of capitalization of corresponding process plant.
 - d) User Right for cluster projects is amortized over 10 years from the date of commissioning.
- 5.6 Imbedded Assets at Port Facilities are depreciated at rates calculated on the basis of balance lease period of land belonging to the Port Authority on which these assets are installed.
- 5.7 Assets costing Rs.10,000/- or less individually are depreciated fully in the year in which they are put to use.
- 5.8 Subsequent expenditure related to an item of fixed asset is prospectively depreciated over the revised useful life of related asset.
- 5.9 Assets laid on land not owned by the Company are depreciated over a period of five years from the date on which the asset is ready for use.
- 5.10 Depreciation on value adjustment is provided prospectively.

6. BORROWING COST.

- 6.1 General and specific borrowing costs attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset until such time the assets are ready for their intended use.
- 6.2 Other borrowing costs are recognized as expenses in the period in which these are incurred.

7. IMPAIRMENT.

Carrying amount of cash generating units is reviewed at each Balance sheet date where there is any indication of impairment based on internal/external sources of information. An impairment loss is recognized in the statement of profit and loss where the carrying amount exceeds the recoverable amount of the cash generating units. Impairment loss is reversed if there is change in the recoverable amount and such loss either no longer exists or has decreased.

8. INVESTMENTS.

Investments that are readily realizable and are intended to be held for not more than one year from the date on which such investments are made are classified as current investments. All other investments are classified as long-term investments. Current investments are stated at cost or market value whichever is lower. Long-term investments are carried at cost, after providing for permanent diminution, if any, in the value of such investments.

9. INVENTORY.

- 9.1 Raw-materials, stores and spares are valued at cost net of CENVAT / VAT credit wherever applicable or net realizable value whichever is lower. Cost is determined by using moving weighted average price method on real time basis.
- 9.2 Stores and spares other than insurance spares held but not issued for more than 5 years are valued at 5% of the cost.
- 9.3 Shortage of coal up to 1% of the receipt quantity is treated as normal loss and beyond 1% is treated as abnormal loss.
- 9.4 Materials and other supplies held for use in the production (other than considered as non-moving) are valued at cost, if the finished products in which they are used are sold at or above cost.
- 9.5 Finished goods, semi-finished goods, intermediary products and work in process including process scrap except anode butts and rejects are valued at lower of cost and net realizable value. Cost is generally determined by using moving weighted average price on real time basis, appropriate share of labour and related overheads. Net realizable value is the estimated selling price in the ordinary course of business less estimated cost necessary to make the sale.
- 9.6 Scrap of various nature internally generated is valued at estimated net realizable value.

10. GOVERNMENT GRANTS.

- 10.1 Fixed assets acquired out of financial grant from Government are shown at cost. The grant-in-aid received is credited to subsidy reserve account. Depreciation on the corresponding asset is adjusted against subsidy reserve.
- 10.2 Revenue grants are recognized as income over the period to which these are related.

Significant Accounting Policies

11. FOREIGN CURRENCY TRANSACTIONS.

- 11.1 All foreign currency transactions are recorded by applying the exchange rate as on the date of transaction.
- 11.2 Monetary assets and liabilities in foreign currency are restated at Year-end exchange rates. Exchange difference on restatement is recognized in the statement of profit and loss.

12. FORWARD EXCHANGE CONTRACT.

Forward exchange contracts outstanding at the year-end relating to firm commitment and highly probable forecast transactions, loss due to exchange difference or arising on marking to market is recognized in the statement of profit & loss whereas gains are ignored.

13. REVENUE RECOGNITION.

13.1 Sales:

- a) Alumina & Aluminium :Sales in the domestic market are recognized at the time of dispatch of materials to the buyers. Export sales are recognized on issue of Bill of Lading. Domestic Sales include excise duty and are net of rebate and price concessions and do not include value added tax (VAT).
- b) Renewable Power: Sale of wind power is recognized on the basis of power transmitted to power distribution companies (DISCOMs) at the price notified by respective authorities. Solar power generated is consumed for captive use in office and township and hence not recognized as income as well as expenditure.
- c) Thermal Power : Sale of power from CPP is considered on the basis of quantity supplied to state grids less wheeling to refinery at the price notified by appropriate authority.

13.2 Receivables/ Incentives:

- a) Claims receivables are accounted for in the statement of profit and loss based on certainty of their realization.
- b) Interest income on term deposits is recognized on a time proportion basis taking in to account the amount outstanding and the rate applicable.
- c) Export incentives i.e.duty draw back and MEIS are recognized on accrual basis on the shipping quantity as per Bill of Lading / export invoice.
- d) Income from Renewable Energy Certificates (REC) is recognized on the basis of power billed to DISCOMs at the weighted average of quoted prices of recognized power exchanges on the last trading day of the reporting period.
- e) Generation Based Incentive (GBI) is recognized on the invoiced quantity at the applicable rate as per scheme.
- f) If there is uncertainty in realization, revenue recognition is postponed.

14. LONG TERM EMPLOYEE BENEFITS.

- 14.1 Defined Contribution Plan: Contributions towards Provident Funds & Pension Scheme are charged to the statement of profit and loss of the period for which the contributions to the Funds are due.
- 14.2 Defined Benefit Plan: Liabilities towards gratuity, accrued leave, long service awards, post retirement medical and settling-in benefits, future payments to the legal heirs of deceased employees under the NEFFARS scheme, contribution towards welfare on superannuation (NRWS), benevolent contribution and expenditure on superannuation gift are made based on the actuarial valuation as at the end of the year and charged to statement of profit and loss after considering actuarial gains/losses.
- 14.3 Expenditure on voluntary retirement compensation is charged off in the year in which it is incurred.

15. PRIOR PERIOD /PREPAID ITEMS.

Income/ Expenditure relating to prior period and prepaid expenses not exceeding Rs.5 lakh in each case is treated as income/expenditure of the current period.

16. EXPENDITURE ON NEW PROJECTS.

Expenses for assessment of new potential projects incurred till and for the purpose of making investment decision are charged to revenue. Expenditure incurred for projects after investment decisions are accounted for under capital-work-in progress and capitalized subsequently.

17. EXPENDITURE ON RESEARCH AND DEVELOPMENT.

Expenditure incurred during research phase is charged to revenue when no intangible asset arises from such research.

Development expenditure except of capital nature is charged to statement of Profit and Loss in the year incurred after setting of incidental income, if any.

Significant Accounting Policies

18. EXCEPTIONAL ITEMS.

Exceptional items are items of income and expenses within profit or loss from ordinary activities but of such size, nature or incidence whose disclosure is felt necessary for better explanation of the performance of the Company.

19. TAX EXPENSES.

Tax expenses for the period, comprising of current tax and deferred tax are included in the determination of net profit or loss for the period.

19.1 Current tax is measured at the amount expected to be paid to tax authorities in accordance with the prevailing taxation laws.

19.2 Deferred Tax expense or benefit is recognized on timing difference being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax Assets (DTA) are recognized only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such DTA can be realized.

19.3 Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date.

20. JOINT VENTURES.

Interest in a jointly controlled entity is accounted for as investment in accordance with Accounting Standard (AS) 13, "Accounting for Investments" with disclosures in line with Accounting Standard (AS) 27, "Financial Reporting of Interests in Joint Ventures".

21. PROVISIONS AGAINST DOUBTFUL DEBTS AND RECOVERABLES.

Provision for doubtful debts and receivables are made where sums receivable from parties other than Govt. Dept. / Govt. Companies are not realized for more than 3 years. In the case of Government Departments / Government Companies, the same is made on case-to-case basis depending upon the merit of the case.

22. PROVISIONS, CONTINGENT LIABILITIES & CONTINGENT ASSETS.

22.1 Provision for contingent liability is recognized when there is present obligation and it is probable that an out flow of resources will be required to settle the obligation and in respect of which reliable estimate can be made. These are reviewed at end of each year and adjusted to reflect the best current estimate.

22.2 Liabilities of contingent nature are disclosed in the financial statement as contingent liabilities when there is a possible obligation or a present obligation that may, but probably will not, require any outflow of resources. No disclosure is made where likelihood of outflow of resources is remote.

22.3 Contingent assets are neither recognized nor disclosed in the financial statements.

Notes on Account

Note No.37: Renewable Purchase Obligation (RPO)

In terms of Notification dated 1st August 2015 issued by the Odisha Electricity Regulatory Commission (OERC), the Company has the obligation to generate power equal to 3% (previous year 6.5%) of its total consumption from renewable sources comprising 0.5% (previous year 0.25%) from Solar Renewable Source, 2.5% (previous year 1.8%) from Non-solar Renewable Source and 0% (previous year 4.45%) from Co-generation.

- a) Company has fulfilled its non-solar obligation through wind power generation for the current year and also part obligation for previous years. Provision has been made for accumulated non-solar obligation amounting to Rs.2.75 Crore (previous year Rs.4.21 crore) towards 18,297 (previous year 28,080) numbers of Non-solar REC valued @ Rs.1,500 (previous year Rs.1,500) per REC.
- b) In respect of Solar Renewable Source, the Company has accumulated liability of Rs.23.24 crore (previous year Rs.14.22 Crore) towards 66,413 (previous year 40,637) numbers of Solar REC valued @ Rs.3,500 (previous year Rs.3,500) per REC due to non-fulfillment of the obligation to generate required quantum of power. The liability has been provided for.

Note No.38: Performance Related Pay

Consequent upon finalization of Performance Related Pay (PRP) of Executives for the year 2012-13 and 2013-14, the liability provided in excess in earlier years on this account amounting to Rs.26.60 crore is written back. The reduction of estimated liability of PRP for the years 2012-13 and 2013-14 is primarily attributable to determination of the profit before tax without considering income from surplus fund as per clarification by the Department of Public Enterprises (DPE) of the Govt. of India.

Note No.39: Renewal of Bauxite mining lease

Renewal of Bauxite mining lease (North & Central Block for 1315.264 Ha and South Block for 528.262 Ha) has been sanctioned upto 31.3.2020. For renewal of lease the Company paid stamp duty amounting to Rs.6.11 crore and Rs.1.00 crore respectively, which is capitalized as part of lease-hold land to be amortized over the respective lease life. The amount disclosed as contingent liability towards the demand made by Govt. of Odisha is correspondingly reduced on payment of the above stamp duty.

Note No.40: Contribution to DMF & NMET

In terms of The Mines and Minerals (Development and Regulation) Amendment Act, 2015 and as per the Mines and Minerals (Contribution to District Mineral Foundation) Rules, 2015 & Mines and Minerals (Contribution to National Mineral Exploration Trust) Rules 2015 framed thereunder and notified on 17th September 2015 by the Ministry of Mines, Government of India, effective from 12th January 2015 the Company is liable to contribute to the District Mineral Foundation (DMF) & National Mineral Exploration Trust (NMET) sums equal to 30% and 2% respectively of its royalty expenses. Accordingly a sum of Rs.34.04 crore and Rs.2.27 crore (including Rs.6.10 crore and Rs.0.41 crore for earlier period) have been recognized as expenses in the current year and taken as liability towards contribution payable to DMF & NMET respectively.

Note No.41: Exceptional Item

The Company has received an amount of Rs.53.45 crore (USD 8.05 million) from M/s Peak Chemicals towards final settlement of risk and cost claim on them due to non-supply of Caustic Soda. The income is recognized as exceptional item.

Note No 42: Impact of ICDS

Income Tax Computation and Disclosure Standards (ICDS) issued by CBDT and made effective from FY 2015-16 have been considered for the purpose of computing tax expenses. However, there is no impact on tax liability of the Company on account of introduction of ICDS.

Note No.43: CSR Expenditure

In terms of Sec 135 of the Companies Act 2013 the CSR obligation of the Company for the year 2015-16 is Rs.26.24 crore against which, the Company has spent Rs.27.17 crore on various CSR activities

Note No 44: Allocation of Coal Mines

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF NATIONAL ALUMINIUM COMPANY LIMITED Report on the Consolidated Financial Statements

We have audited the accompanying consolidated financial statements of **National Aluminium Company Limited** (hereinafter referred to as “the Company”) and its jointly controlled entities, comprising of the Consolidated Balance Sheet as at 31st March, 2016, the Consolidated Statement of Profit and Loss, the Consolidated Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “the consolidated financial statements”).

Management's Responsibility for the Consolidated Financial Statements

The Company's board of directors is responsible for the preparation of these consolidated financial statements in terms of the requirements of the Companies Act, 2013 (hereinafter referred to as “the Act”) that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows of the Company including its jointly controlled entities in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. The board of directors of the Company and its jointly controlled companies are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the respective companies and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the directors of the Company, as aforesaid.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. While conducting the audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters, which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the consolidated financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has an adequate internal financial control system over financial reporting in place and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's board of directors, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence obtained by us and the audit evidence obtained by the other auditors in terms of

their reports referred to in sub-paragraph (a) of the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Company and its jointly controlled entities as at 31st March, 2016, and their consolidated profit and their consolidated cash flows for the year ended on that date.

**ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE
ON THE CONSOLIDATED FINANCIAL STATEMENTS OF
NATIONAL ALUMINIUM COMPANY LIMITED**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of
Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2016, we have audited the internal financial controls over financial reporting of **NATIONAL ALUMINIUM COMPANY LIMITED** (hereinafter referred to as ("the Company")) and its jointly controlled entities, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Company and its jointly controlled companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the other matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company and its jointly controlled entities, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to 2 (two) jointly controlled entities of the Company, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India and in so far as it relates to 1 (one) jointly controlled entity of the Company, which is a company incorporated in India, is based on the management's report.

COMMENTS OF THE COMPTROLLER AND AUDITOR GENERAL OF INDIA UNDER SECTION 143(6)(b) READ WITH SECTION 129(4) OF THE COMPANIES ACT, 2013 ON THE CONSOLIDATED FINANCIAL STATEMENTS OF NATIONAL ALUMINIUM COMPANY LIMITED, BHUBANESWAR FOR THE YEAR ENDED 31 MARCH 2016

The preparation of consolidated financial statements of National Aluminium Company Limited for the year ended 31 March 2016 in accordance with the financial reporting framework prescribed under the Companies Act, 2013 (Act) is the responsibility of the management of the company. The statutory auditors appointed by the Comptroller and Auditor General of India under section 139(5) read with section 129(4) of the Act are responsible for expressing opinion on the financial statements under section 143 read with section 129(4) of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 28 May 2016.

I, on the behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit under section 143(6)(a) read with section 129(4) of the Act of the consolidated financial statements of National Aluminium Company Limited for the year ended 31 March 2016. We conducted a supplementary audit of the financial statements of National Aluminium Company Limited and its associate company NPCIL- NALCO Power Company Limited, but did not conduct supplementary audit of the financial statements of its associate company Angul Aluminium Park Private Limited for the year ended on that date. Further, section 139(5) and 143(6)(a) of the Act are not applicable to its associate company GACL-NALCO Alkalies Chemicals Private Limited being private entity for appointment of their Statutory Auditor nor for conduct of supplementary audit. Accordingly, C&AG has neither appointed the Statutory Auditors nor conducted the supplementary audit of this company. This supplementary audit has been carried out independently without access to the working papers of the statutory auditors and is limited primarily to inquiries of the statutory auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report.

Note:

- The Company has considered Chemicals and Aluminium as the two primary business segments. Chemicals include Calcined Alumina, Alumina Hydrate and other related products. Aluminium includes aluminium ingots, wire rods, billets, strips, rolled and other related products. Bauxite produced for captive consumption for production of alumina is included under chemicals and power generated for captive consumption for production of Aluminium is included under Aluminium segment. Wind Power Plant commissioned primarily to harness the potential renewable energy sources is included in the unallocated Common segment.
- India and Outside India are the two geographical segments. Since all production and other facilities are located in India, segment assets except export debtors are shown under one geographic segment i.e. India.
- Inter-segment transfer of Calcined Alumina is considered at average sales realization from export sales during the period less freight from Refinery to Port at Vizag plus export incentive. Transfer of power from Aluminium segment to Chemical segment is considered at the annual / periodic average purchase price of power from State Grid at Alumina Refinery.
- Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities. Revenue, expenses, assets and liabilities, which relate to the enterprise as a whole and are not allocable on a reasonable basis, have been included under Unallocated Common segment.

Significant Accounting Policies

1. BASIS OF ACCOUNTING.

The financial statements are prepared under historical cost convention on accrual basis of accounting, in accordance with the generally accepted accounting principles in India, relevant provisions of the Companies Act, 2013 and applicable accounting standards prescribed under Sec. 133 of Companies Act, 2013.

2. USE OF ESTIMATES.

In preparing the financial statements, the estimates and assumptions that may have bearing on the amount of assets or liabilities or contingent liabilities reported as at the date of financial statements and/or the amount of income or expenses declared during the period, have been made. Variation with the actual is recognized in the year in which the same is crystallized.

3. CLASSIFICATION OF ASSETS AND LIABILITIES

Based on the nature of business, operating cycle of 12 months has been taken for the purpose of current and non-current classification of assets and liabilities. Accordingly, all assets and liabilities have been classified as current or non-current as per Company's operating cycle and other criteria set out in Schedule-III of the Companies Act 2013.

4. FIXED ASSETS.

- 4.1 All tangible fixed assets are stated at historical cost net of accumulated depreciation and accumulated impairment loss, if any. Cost includes all direct expenditure of acquisition net of CENVAT/VAT credit, attributable indirect expenses and borrowing cost, wherever applicable.
- 4.2 Expenditure on existing tangible assets towards renovation and modernization resulting in increased life and/or efficiency is added to the cost of related assets.
- 4.3 Expenditure on development of land including leasehold land is capitalized as part of cost of land.
- 4.4 Intangible Assets are stated at acquisition cost less accumulated amortization.
Mining Rights (including payments made to Government Authority towards restoration of land, forest, wildlife etc. in relation to the bauxite mines), User Right for Jointly Controlled Asset, ERP & RDBMS and other Software User Rights, License & Franchise (Technical Knowhow Right) and R&D knowhow are treated as intangible assets.
- 4.5 Machinery spares (insurance spares) that are specific to a fixed asset valuing more than Rs.1 lakh per unit are capitalized along with the fixed asset.
- 4.6 Fixed assets retired from active use and held for disposal are stated at net book value less provision for doubtful realization, if any, and considered as other current asset till the time of its disposal.
- 4.7 Components of Plant & Machinery having different useful lives are separately recognized. The cut-off value of each component for such separate recognition is Rs.1 Crore. Value of component with different useful life crossing the threshold limit when replaced is recognized as a separate component.

5. DEPRECIATION.

- 5.1 Depreciation on tangible fixed assets is provided on straight-line method over the useful life of the asset as prescribed in Schedule II of the Companies Act 2013 or life assessed by the Management whichever is lower.
- 5.2 In respect of the following assets, a higher rate of depreciation is considered based on the lower useful life ascertained by the Management. Depreciation and amortization method, useful life and residual value are reviewed periodically including at each financial year end:
 - a) Life of immovable fixed assets at Bauxite Mines is limited to the period up to which Bauxite reserve is available at respective block of mines.
 - b) Life of thermal power generation plant at CPP and Steam Power plant at Refinery is considered as 30 years and 25 years respectively.
 - c) Lives of Red Mud Pond & Ash Pond at Alumina Refinery and Ash Ponds at Captive Power Plant are based on their estimated remaining useful life, evaluated on the basis of technical estimates made periodically.
- 5.3 Fixed assets which are subject to componentization, comprises of main assets, componentized assets and remainders if any. Main assets have the life as prescribed under Schedule-II of the Companies Act 2013 or life assessed by the technical committee whichever is lower. Componentized assets having value of Rs.1 crore or above have the life as assessed by the Technical Committee whereas the remainders, if any, carry the life of main assets.
- 5.4 The residual values of plant & machinery, vehicles, mobile equipments, earth moving equipments, railway facilities, rolling stock and residential quarters are considered to be 5% of the original cost. For all other assets, the residual value is considered to be Nil as per technical estimation.
- 5.5 Intangible assets are amortized on a straight-line basis as follows
 - a) Software classified as intangible assets are amortized over a period of 3 years.
 - b) Mining Rights (i.e NPV and other incidental payments) is amortized over the period for which the mining right is available. Other incidental payments in connection thereto are amortized over a period of 20 years from the date of payment.
 - c) License for Technical Knowhow is amortized over 10 years from the date of capitalization of corresponding process plant.
 - d) User Right for cluster projects is amortized over 10 years from the date of commissioning.

Significant Accounting Policies

- 5.6 Imbedded Assets at Port Facilities are depreciated at rates calculated on the basis of balance lease period of land belonging to the Port Authority on which these assets are installed.
- 5.7 Assets costing Rs.10,000/- or less individually are depreciated fully in the year in which they are put to use.
- 5.8 Subsequent expenditure related to an item of fixed asset is prospectively depreciated over the revised useful life of related asset.
- 5.9 Assets laid on land not owned by the Company are depreciated over a period of five years from the date on which the asset is ready for use.
- 5.10 Depreciation on value adjustment is provided prospectively.

6. BORROWING COST.

- 6.1 General and specific borrowing costs attributable to the acquisition or construction of a qualifying asset are capitalized as part of the cost of that asset until such time the assets are ready for their intended use.
- 6.2 Other borrowing costs are recognized as expenses in the period in which these are incurred.

7. IMPAIRMENT.

Carrying amount of cash generating units is reviewed at each Balance sheet date where there is any indication of impairment based on internal/external sources of information. An impairment loss is recognized in the statement of profit and loss where the carrying amount exceeds the recoverable amount of the cash generating units. Impairment loss is reversed if there is change in the recoverable amount and such loss either no longer exists or has decreased.

8. INVESTMENTS.

Investments that are readily realizable and are intended to be held for not more than one year from the date on which such investments are made are classified as current investments. All other investments are classified as long-term investments. Current investments are stated at cost or market value whichever is lower. Long-term investments are carried at cost, after providing for permanent diminution, if any, in the value of such investments.

9. INVENTORY.

- 9.1 Raw-materials, stores and spares are valued at cost net of CENVAT / VAT credit wherever applicable or net realizable value whichever is lower. Cost is determined by using moving weighted average price method on real time basis.
- 9.2 Stores and spares other than insurance spares held but not issued for more than 5 years are valued at 5% of the cost.
- 9.3 Shortage of coal up to 1% of the receipt quantity is treated as normal loss and beyond 1% is treated as abnormal loss.
- 9.4 Materials and other supplies held for use in the production (other than considered as non-moving) are valued at cost, if the finished products in which they are used are sold at or above cost.
- 9.5 Finished goods, semi-finished goods, intermediary products and work in process including process scrap except anode butts and rejects are valued at lower of cost and net realizable value. Cost is generally determined by using moving weighted average price on real time basis, appropriate share of labour and related overheads. Net realizable value is the estimated selling price in the ordinary course of business less estimated cost necessary to make the sale.
- 9.6 Scrap of various nature internally generated is valued at estimated net realizable value.

10. GOVERNMENT GRANTS.

- 10.1 Fixed assets acquired out of financial grant from Government are shown at cost. The grant-in-aid received is credited to subsidy reserve account. Depreciation on the corresponding asset is adjusted against subsidy reserve.
- 10.2 Revenue grants are recognized as income over the period to which these are related.

11. FOREIGN CURRENCY TRANSACTIONS.

- 11.1 All foreign currency transactions are recorded by applying the exchange rate as on the date of transaction.
- 11.2 Monetary assets and liabilities in foreign currency are restated at year-end exchange rates. Exchange difference on restatement is recognized in the statement of profit and loss.

12. FORWARD EXCHANGE CONTRACT.

Forward exchange contracts outstanding at the year-end relating to firm commitment and highly probable forecast transactions, loss due to exchange difference or arising on marking to market is recognized in the statement of profit & loss whereas gains are ignored.

13. REVENUE RECOGNITION.

13.1 Sales:

- a) Alumina & Aluminium : Sales in the domestic market are recognized at the time of dispatch of materials to the buyers. Export sales are recognized on issue of Bill of Lading. Domestic Sales include excise duty and are net of rebate and price concessions and do not include value added tax (VAT).
- b) Renewable Power: Sale of wind power is recognized on the basis of power transmitted to power distribution companies (DISCOMs) at the price notified by respective authorities. Solar power generated is consumed for captive use in office and township and hence not recognized as income as well as expenditure.
- c) Thermal Power : Sale of power from CPP is considered on the basis of quantity supplied to state grids less wheeling to refinery at the price notified by appropriate authority.

Significant Accounting Policies

13.2 Receivables/ Incentives:

- a) Claims receivables are accounted for in the statement of profit and loss based on certainty of their realization.
- b) Interest income on term deposits is recognized on a time proportion basis taking in to account the amount outstanding and the rate applicable.
- c) Export incentives i.e.duty draw back and MEIS are recognized on accrual basis on the shipping quantity as per Bill of Lading / export invoice.
- d) Income from Renewable Energy Certificates (REC) is recognized on the basis of power billed to DISCOMs at the weighted average of quoted prices of recognized power exchanges on the last trading day of the reporting period.
- e) Generation Based Incentive (GBI) is recognized on the invoiced quantity at the applicable rate as per scheme.
- f) If there is uncertainty in realization, revenue recognition is postponed.

14. LONG TERM EMPLOYEE BENEFITS.

- 14.1 Defined Contribution Plan: Contributions towards Provident Funds & Pension Scheme are charged to the statement of profit and loss of the period for which the contributions to the Funds are due.
- 14.2 Defined Benefit Plan: Liabilities towards gratuity, accrued leave, long service awards, post retirement medical and settling-in benefits, future payments to the legal heirs of deceased employees under the NEFFARS scheme, contribution towards welfare on superannuation (NRWS), benevolent contribution and expenditure on superannuation gift are made based on the actuarial valuation as at the end of the year and charged to statement of profit and loss after considering actuarial gains/losses.
- 14.3 Expenditure on voluntary retirement compensation is charged off in the year in which it is incurred.

15. PRIOR PERIOD /PREPAID ITEMS.

Income/ Expenditure relating to prior period and prepaid expenses not exceeding Rs.5 lakh in each case is treated as income/expenditure of the current period.

16. EXPENDITURE ON NEW PROJECTS.

Expenses for assessment of new potential projects incurred till and for the purpose of making investment decision are charged to revenue. Expenditure incurred for projects after investment decisions are accounted for under capital-work-in progress and capitalized subsequently.

17. EXPENDITURE ON RESEARCH AND DEVELOPMENT.

Expenditure incurred during research phase is charged to revenue when no intangible asset arises from such research.

Development expenditure except of capital nature is charged to statement of Profit and Loss in the year incurred after setting of incidental income, if any.

18. EXCEPTIONAL ITEMS.

Exceptional items are items of income and expenses within profit or loss from ordinary activities but of such size, nature or incidence whose disclosure is felt necessary for better explanation of the performance of the Company.

19. TAX EXPENSES.

Tax expenses for the period, comprising of current tax and deferred tax are included in the determination of net profit or loss for the period.

- 19.1 Current tax is measured at the amount expected to be paid to tax authorities in accordance with the prevailing taxation laws.
- 19.2 Deferred Tax expense or benefit is recognized on timing difference being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred Tax Assets (DTA) are recognized only if there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such DTA can be realized.
- 19.3 Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date.

20. JOINT VENTURES.

Interest in a jointly controlled entity is accounted for as investment in accordance with Accounting Standard (AS) 13, "Accounting for Investments" with disclosures in line with Accounting Standard (AS) 27, "Financial Reporting of Interests in Joint Ventures".

21. PROVISIONS AGAINST DOUBTFUL DEBTS AND RECOVERABLES.

Provision for doubtful debts and receivables are made where sums receivable from parties other than Govt. Dept. / Govt. Companies are not realized for more than 3 years. In the case of Government Departments / Government Companies, the same is made on case-to-case basis depending upon the merit of the case.

22. PROVISIONS, CONTINGENT LIABILITIES & CONTINGENT ASSETS.

- 22.1 Provision for contingent liability is recognized when there is present obligation and it is probable that an out flow of resources will be required to settle the obligation and in respect of which reliable estimate can be made. These are reviewed at end of each year and adjusted to reflect the best current estimate.
- 22.2 Liabilities of contingent nature are disclosed in the financial statement as contingent liabilities when there is a possible obligation or a present obligation that may, but probably will not, require any outflow of resources. No disclosure is made where likelihood of outflow of resources is remote.
- 22.3 Contingent assets are neither recognized nor disclosed in the financial statements.

Note No.37: Renewable Purchase Obligation (RPO)

In terms of Notification dated 1st August 2015 issued by the Odisha Electricity Regulatory Commission (OERC), the Company has the obligation to generate power equal to 3% (previous year 6.5%) of its total consumption from renewable sources comprising 0.5% (previous year 0.25%) from Solar Renewable Source, 2.5% (previous year 1.8%) from Non-solar Renewable Source and 0% (previous year 4.45%) from Co-generation.

- a) Company has fulfilled its non-solar obligation through wind power generation for the current year and also part obligation for previous years. Provision has been made for accumulated non-solar obligation amounting to Rs.2.75 Crore (previous year Rs.4.21 crore) towards 18,297 (previous year 28,080) numbers of Non-solar REC valued @ Rs.1,500 (previous year Rs.1,500) per REC.
- b) In respect of Solar Renewable Source, the Company has accumulated liability of Rs.23.24 crore (previous year Rs.14.22 Crore) towards 66,413 (previous year 40,637) numbers of Solar REC valued @ Rs.3,500 (previous year Rs.3,500) per REC due to non-fulfillment of the obligation to generate required quantum of power. The liability has been provided for.

Note No.38: Performance Related Pay

Consequent upon finalization of Performance Related Pay (PRP) of Executives for the year 2012-13 and 2013-14, the liability provided in excess in earlier years on this account amounting to Rs.26.60 crore is written back. The reduction of estimated liability of PRP for the years 2012-13 and 2013-14 is primarily attributable to determination of the profit before tax without considering income from surplus fund as per clarification by the Department of Public Enterprises (DPE) of the Govt. of India.

Note No.39: Renewal of Bauxite mining lease

Renewal of Bauxite mining lease (North & Central Block for 1315.264 Ha and South Block for 528.262 Ha) has been sanctioned upto 31.3.2020. For renewal of lease the Company paid stamp duty amounting to Rs.6.11 crore and Rs.1.00 crore respectively, which is capitalized as part of lease-hold land to be amortized over the respective lease life. The amount disclosed as contingent liability towards the demand made by Govt. of Odisha is correspondingly reduced on payment of the above stamp duty.

Note No.40: Contribution to DMF & NMET

In terms of The Mines and Minerals (Development and Regulation) Amendment Act, 2015 and as per the Mines and Minerals (Contribution to District Mineral Foundation) Rules, 2015 & Mines and Minerals (Contribution to National Mineral Exploration Trust) Rules 2015 framed thereunder and notified on 17th September 2015 by the Ministry of Mines, Government of India, effective from 12th January 2015 the Company is liable to contribute to the District Mineral Foundation (DMF) & National Mineral Exploration Trust (NMET) sums equal to 30% and 2% respectively of its royalty expenses. Accordingly a sum of Rs.34.04 crore and Rs.2.27 crore (including Rs.6.10 crore and Rs.0.41 crore for earlier period) have been recognized as expenses in the current year and taken as liability towards contribution payable to DMF & NMET respectively.

Note No.41: Exceptional Item

The Company has received an amount of Rs.53.45 crore (USD 8.05 million) from M/s Peak Chemicals towards final settlement of risk and cost claim on them due to non-supply of Caustic Soda. The income is recognized as exceptional item.

Note No 42: Impact of ICDS

Income Tax Computation and Disclosure Standards (ICDS) issued by CBDT and made effective from FY 2015-16 have been considered for the purpose of computing tax expenses. However, there is no impact on tax liability of the Company on account of introduction of ICDS.

Note No.43: CSR Expenditure

In terms of Sec 135 of the Companies Act 2013 the CSR obligation of the Company for the year 2015-16 is Rs.26.24 crore against which, the Company has spent Rs.27.17 crore on various CSR activities

Note No 44: Allocation of Coal Mines

- i. The Ministry of Coal, Govt. of India, allotted Utkal D & E coal blocks to Nalco in accordance with the provisions of the Coal Mines (Special provisions) Act 2015 and has directed the Nominated Authority to execute the allotment order in favour of the Company on 11th September 2015.
- ii. The allotment agreement has been executed by and between the Govt. of India and Nalco in respect of said Utkal D&E coal blocks. As per the terms of allotment agreement, the Company has paid fixed amount of Rs.8.21crore and 1st installment (50%) of the upfront amount of Rs.18.11 crore to the Govt. of India. These are considered as capital advance.
- iii. The Company is in the process of acquiring lease-hold and free-hold land required for carrying out mining activities at Utkal D&E coal blocks and has so far paid Rs.91.57 crore to Odisha Industrial Development Corporation towards acquisition of land and to other Govt. agencies for development of infrastructural facilities. The title deed and possession is yet to be passed on to the Company, pending which the amount paid is treated as capital advance.
- iv. The amount of Rs.39.34 crore spent till date for development of coal blocks including Rs.34.75 crores spent till the date of earlier de-allocation and expenditure thereafter during deallocation period pursuant to decision of Hon'ble Supreme Court, is included in expenditure during construction under capital work-in-progress.

Note No.45: Leases

- a) The Company is operating its mining activities at Panchpatmali bauxite mines based on lease granted by Government of Odisha. In connection with the lease, the Company has paid NPV and other related claims, which is capitalized as intangible assets under Mining Rights and amortized on straight line basis as per Accounting Policy of the Company.
- b) The Mining lease is subject to payment of surface rent and dead rent on the land acquired by the Company. The Company has spent an amount of Rs.0.27 crore (previous year Rs.0.26 crore) towards surface and dead rent, which is charged to the statement of profit and loss.
- c) The Company performs its port operations on the land taken on lease from Vizag Port Trust. The amount paid towards lease rent Rs.2.63 crore (previous year Rs.2.53 crore) is charged to the statement of profit and loss.

Note No.46: Deposit with Income Tax Authority

The Company has paid demands made by the Income Tax Authority from time to time although disputed in appeal. The aggregate amount of disputed demand is Rs.702.06 crore (previous year Rs. 653.48 crore) which is treated as deposit with income tax authority. Disputes involving demand of Rs.52.14 crore relate to AY 2003-04 & 2006-07 and are pending before Hon'ble Orissa High Court. Disputes involving balance demand amount of Rs.649.92 crore pertain to AY 2005-06 & AY 2007-08 to AY 2013-14 and are lying either before CIT (Appeals) or Income Tax Appellate Tribunal.

Note No.47: Liability for Interest on Water Charges

The Water Resources Department, Government of Odisha, having territorial jurisdiction over the Government water sources raised claims on the Company for water charges and interest on unpaid water charges in terms of The Orissa Irrigation Rules, 1961. While the Company has cleared water charges dues, payment of interest, although provided for, is pending for settlement.

Note No.48: Dues payable to Micro, Small and Medium Enterprises

Dues payable to micro and small enterprises as defined in the Micro, Small and Medium Enterprises Development Act, 2006 have been determined to the extent such parties have been identified on the basis of information available with the Company. The disclosure pursuant to said Act is as under.
