

## Water / Waste Water / Aluminate Liquor Analysis

### Potentiometer

**Model:** 905 Titrando

**Make:** Metrohm AG, Switzerland

**Application:** Used for to determine RP (A/C)/ alumina: caustic ratio, soda, alumina & carbonate in aluminate liquor.

Parameter	Industries/Institutions	Students & Research Scholars
Alumina & RP analysis (Per sample )	Rs.1000	Rs.500
Carbonate analysis (Per sample )	Rs.1000	Rs.500

## Water & Waste Water Analysis

Parameter	Industries/Institutions	Students & Research Scholars
pH, Ions, Conductivity, Turbidity, Residual Chlorine, TDS, TSS, Alkalinity, Total Hardness, Ca-Hardness, Sulphate, Chloride, Iron (per sample per parameter)	Rs.350	Rs.175
