1. The techno-commercially qualified bidders shall be eligible to participate in Reverse Auction Process.
2. **The price bids of techno-commercially qualified bidders shall be opened as per schedule in the tendering portal(CPPP).The commencement of reverse auction shall be scheduled in CPP Portal & the reverse auction window shall remain open for minimum one hour from the start time.**
3. If a bidder does not participate in the Reverse Auction, the price quoted by him in the price bid shall be considered as the valid price of that bidder. The inter-se position of the said bidder shall be considered based on their position on completion of reverse auction.
4. Starting bid price shall be the L-1 offer price received against the tender.
5. **Bid Decremental Value shall be as defined & indicated in auction creation form of CPP Portal.**
6. Auto Extension Time shall be fixed at 10 Minutes
7. Other relevant parameters shall be displayed in the CPP Portal reverse auction window.
8. CPP Portal Server time shall be the basis of Start time & Closing time for bidding and shall be binding for all.
9. Auction flow is started and is closed after completion of the process. Once the Auction process is initiated the system takes over for auto auction activity. Then, comparison chart is generated.
10. The bidders to participate in tender-cum-auction process in CPP Portal, has to log into CPP Portal (i.e. <https://eprocure.gov.in/eprocure/app>) with DSC to access the application and quote from their own offices/place of their choice. Once logged in, the software gives them a platform to place bids.
11. All electronic bids submitted during the reverse auction process shall be legally binding on the bidder. The bid values submitted by the bidder are digitally signed by the bidders before submitting. The bidder, after initial submission of a bid, cannot subsequently increase the bid. They can only reduce their bid by the minimum permissible decrement or its multiples. The last bid submitted by the bidder in the Reverse Auction will be considered as the valid price bid offered by that bidder and will be the basis for evaluation / acceptance by Nalco.
12. System displays L1 landed price in auction creation form and the same will be the 'start bid' price.
13. **Elapsed time:** Shall be fixed at ten minutes. There will be auto extensions of time, every time, (by ten minutes) in case of any reduction recorded in the last auto-extension-time-duration. The reverse auction will come to a close only when there is no further reduction recorded in the last ten minutes slot.
14. **Maximum Seal Percentage:** It is the maximum reduction that can be allowed in the bidding process in a single go. Higher reduction will not be allowed by the system. This protects any possible mistakes by bidders. For any higher discount, the bidder has to repeat the action and the system allows it.
15. Only the chronologically last bid submitted by the bidder till the end of the auction shall be considered as the valid price bid of that bidder. Any bid submitted earlier by the bidder prior to submission of his last bid will not be considered as valid price bid.
16. Final BOQ-Comparative-Chart is generated from the system, by freezing the tender at the end of reverse auction process. This chart contains original offer and L1 auction price details. The log details of the entire reverse auction process will be generated by the system once the process of reverse auction is completed. The above information can also be accessed by the participating bidders, once the reverse auction is completed.
17. In case of disruption of service at the CPP Portal end during Reverse Auction Process, the Reverse Auction Process will start all over again. In such a situation, the last recorded lowest price of prematurely ended Reverse Auction Process, will be the 'Start Bid' price for the restarted process.

Disruption and restarting of Reverse Auction Process shall be intimated to all the bidders through system/SMS/e-mail through CPP Portal. All the stipulations of pre-maturely ended Reverse Auction Process will be applicable to the restarted process.

18. Bidders at their own interest should ensure uninterrupted internet connectivity at their end during the reverse auction with necessary backups to take care of any connectivity problem.
19. Bid Decremental Value & Maximum Seal Percentage shall be uploaded in CPPP keeping in view the L-1 price. In order to have trouble –free elementary level reverse auction process, NALCO reserves the right to make any changes, as deemed fit.
